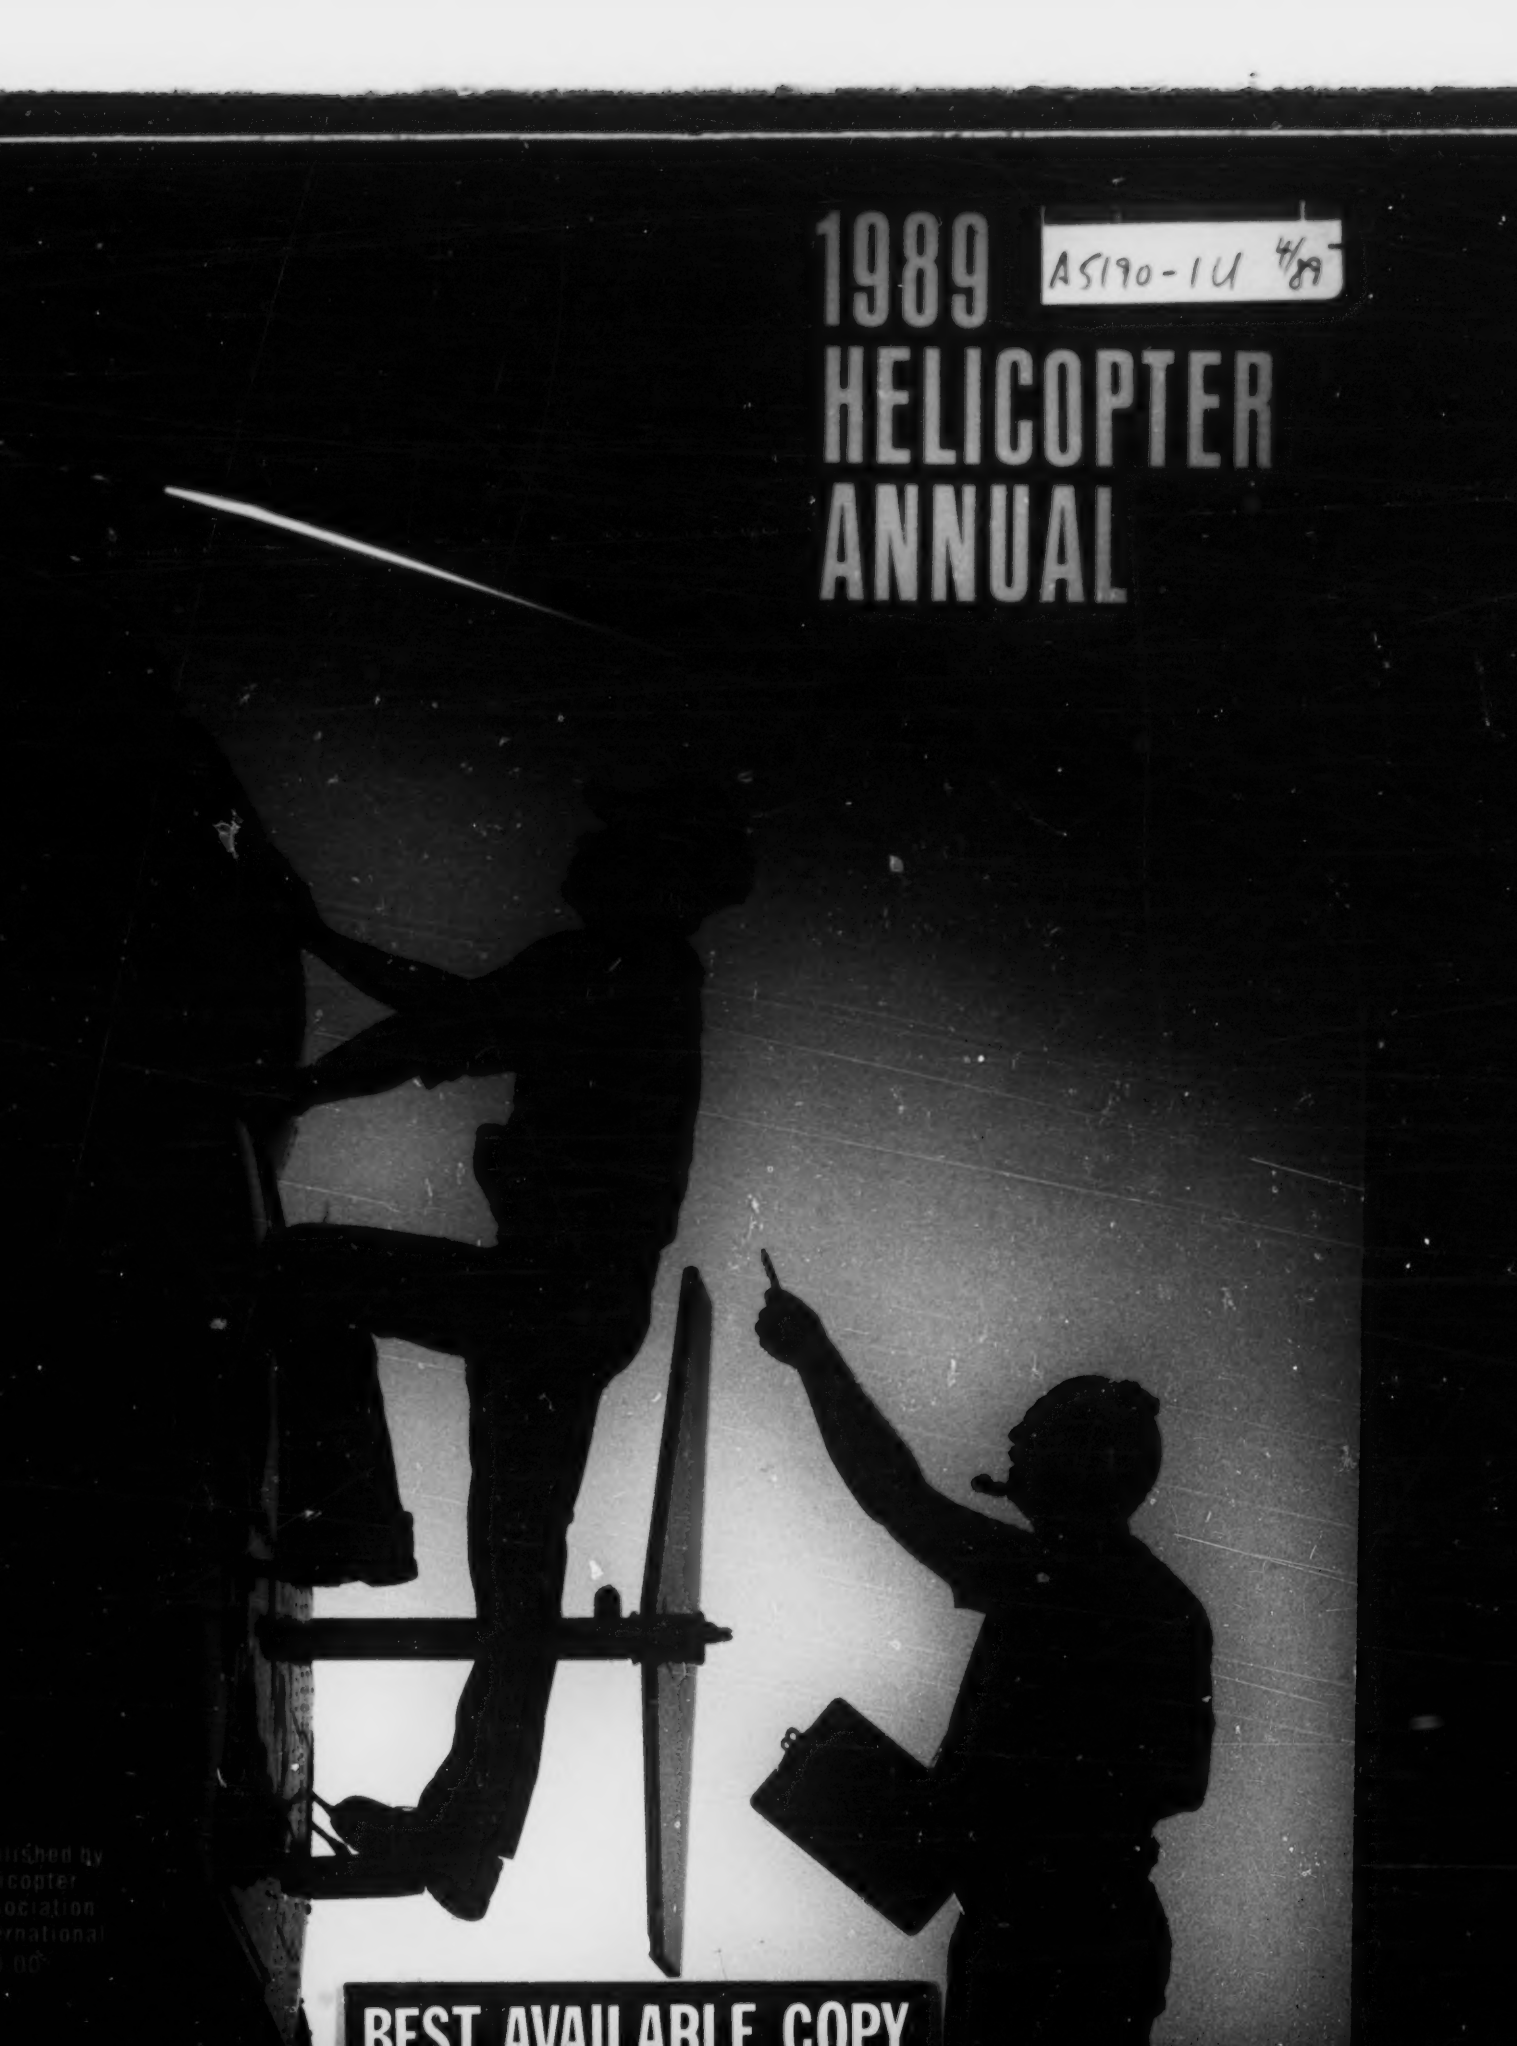
1989 HELICOPTER ANNUAL

AS190-14 4/89



BEST AVAILABLE COPY

WIDEBODY. MISSION EFFICIENCY.

It's one thing to promise efficiency, something else to deliver it.
The Agusta A109 Widebody has proven it can deliver. Experts regard it as the most efficient executive helicopter in its class flying today, and the most reliable.
The A109 is powered by two of the most trustworthy turbines ever built. Its flight deck boasts sophisticated avionics systems and state-of-the-art navigation equipment.
The A109 is IFR, single pilot certified, allowing it to operate efficiently in almost all kinds of weather and it's fast - 173 miles per hour fast, miles ahead of competition. One of its most commendable virtues is comfort: fly it and you will understand.
The magnificent Agusta A109 Widebody, pacesetting technology and internationally demonstrated dependability.
Serving the transportation needs of business everyday.
Mission efficiency.
Mission accomplished.

The 1989 Helicopter Annual Publisher's Note

The premier (1983) edition of HAI's Helicopter Annual received a Gold Circle award from the American Society of Association Executives (ASAE) as Best Membership Directory and Buyer's Guide.

The fifth edition (1987) of the Helicopter Annual received a Certificate of Merit from ASAE for overall content and production excellence.

This year, the 1988 Helicopter Annual, typeset in-house on HAI's desktop publishing program, was honored for excellence in a national desktop publishing contest sponsored by the Xerox Corporation!

That is quite a track record and indicates the importance placed on this annual directory and buyer's guide, both within and without the civil helicopter industry.

The Helicopter Annual is distributed to: every registrant at HAI's Annual Meeting and Industry Exposition; the general business and aviation trade press; the FAA, DOT, and NTSB; each member of Congress and the U.S. Senate; and the aviation travel departments of the Fortune 500, among many others.

The 1989 Annual contains important new information including: an in-depth chart indicating the new organizational structure of the FAA; a pictorial listing of key aviation policymakers; and a directory of engine manufacturers' contacts.

The Helicopter Association International is proud to be the trade association of the civil helicopter industry, and is also proud of the award-winning helicopter annual.

We truly appreciate comments from operators, manufacturers and other industry professionals on the structure of the Annual, and ways it can be further improved.

Sincerely,

Vernon E. Albert

412SP

A world of comfort for the corporate world.

Its comfort is greater than ever. It goes farther, with a smoother ride. Everything from a four-blade rotor to a deluxe interior that tells the corporate world: *This* is the reward for thinking big.

Bell 412SP: an airborne boardroom that can be furnished, decorated and appointed in a way that reflects your corporate style. Which is exactly how you arrive … in executive *style*.

Convene a meeting en route to the destination, flying over the traffic jams at speeds up to 155 mph. It's quiet … a beautiful ride by any measure.

The trip is even more comfortable when you remember this is a *proven* helicopter, built by the world's most experienced helicopter manufacturer.

For even greater assurance, the 412SP flies with Pratt & Whitney PT6T-3B Twin Pac® turbines — a proven power plant with almost eight million hours of experience.

Finally, the Bell 412SP is backed by the world's biggest and best service and support.

SCREEN TEST.

We don't settle for anything less than top performance. With 3-D modeling CAD/CAM systems, we can take a part and turn it inside out. We can analyze and improve its aerodynamic and life characteristics, before we start production. So you not only get the best gas turbines, you also get the best price.

You'll discover advanced technology throughout our entire engine-building process. With interactive automated systems like Distributed Numerical Control (DNC). To bring more intelligence to the point of operation. And High Temperature Combustor Rigs for monitoring hot-end components at design operating temperatures and pressures.

To programmed laser welding and machining that attain precision beyond state of the art.

Screen test. Another reason Textron Lycoming can take an idea further than it's ever gone before.

1989 HELICOPTER ANNUAL DEDICATION

The seventh edition of the Helicopter Annual is dedicated to the professionals who comprise the three key elements required for a successful civil helicopter operation: maintenance engineering, management and pilots. These categories are listed alphabetically, and not necessarily in order of importance, because each relies on the others for success. In our industry, success means safety-- always the ultimate goal.

HAI salutes the topnotch professionals who have worked in unison over the years, as maintenance technicians, managers and pilots, to insure the safe and successful growth of the civil helicopter industry.

Helicopter Association International

* All HAI members are encouraged to use HAI's widely recognized and highly respected logo on their letterhead, advertisements, and news releases. Proclaim your HAI membership proudly. Remember: HAI represents substance not just glitter ... our strength is in our unity.

Business & commercial Aviation

The publication that gives helicopter operators their own magazine within a magazine...

. . . It's B/CA HELICOPTER, the special "magazine-within-B/CA-magazine". Answering the need for information about management, hardware and piloting technique.

Providing uniquely valuable coverage of helicopter operators' Three Ms of Management: Money, Marketing and Manpower.

Bound into six issues a year of Business and Commercial Aviation Magazine, B/CA HELICOPTER offers exclusive editorial features that can't be found anywhere else in the industry.

So be sure to keep up and be with B/CA HELICOPTER, a "magazine-within-a-magazine" that gives unique contact with the world of helicopters.

Key Helicopter Statistics

The most requested statistical data about helicopters.

HAI continues to be a focal point for requests for statistical information of all kinds on our industry. We are continuing our efforts to provide better statistics on the industry, both nationally and internationally. We have carefully reviewed the statistics and they are the most accurate available. We will continue to work with Air Track, the National Transportation Safety Board, the FAA and other government agencies to provide consistently accurate data on the helicopter industry.

U.S. Civil helicopter accident trends

Year	Total Flight Hours	No. of Accidents Per 100,000 hrs.	Fatal Accidents Per 100,000 hrs.	Fatalities Per 100,000 hrs.	Injuries Per 100,000 hrs.
1980	2,338,370	13.43	2.44	4.40	6.50
1981	2,686,139	11.43	1.49	2.75	6.81
1982	2,335,611	12.74	2.21	3.65	6.96
1983	2,280,037	11.71	1.80	2.94	5.88
1984	2,503,301	10.39	1.64	2.64	6.99
1985	2,160,322	10.55	1.99	2.82	7.08
1986	2,406,000	8.81	1.79	3.12	3.99
1987	2,700,000	6.74	1.11	3.62	3.81
1988P	2,700,000	6.62	.75	0.92	4.40

The table above uses data compiled from the National Transportation Safety Board and the FAA Accident/Incident Data System data base. Different branches of the Federal Aviation Administration employ various methods for determining total helicopter flight hours. FAA estimates of total flight hours for 1987 range from 2.28 million to 3.1 million. In the table above, total flight hours for 1987 and 1988 are based on data provided by the FAA's office of Policy and Planning.

P = Preliminary Data. 1988 data is a projected total based on accident activity reported to the National Transportation Safety Board during the first ten months of 1988.

The most important part we sell is the one that helps you keep a promise.

You've promised to have your customer's aircraft ready to fly by a certain time.

So you do what maintenance professionals have been doing for more than 50 years. You call Aviall. Because, with a $75 million inventory representing the product lines of over 200 manufacturers, and 80 distribution branches worldwide, you can depend on us to respond with the parts and quantities you need now.

Our approach to business and general aviation parts distribution is as it has always been — attentive, personalized and professional.

But the real value of what we do lies in our total commitment to customer satisfaction. Because Aviall's philosophy of service doesn't allow for anything but the best each of us has to give.

It's what you expect of us. It's what we expect of ourselves.

AVIALL

Heliport and Helipad Statistics

This heliport statistical data was compiled by HAI's Operations Department in cooperation with Eventide Avionics. It is based on source data from the Federal Aviation Administration's National Flight Data Center (NFDC) as of 10/20/88. NFDC reports reflect only those permanent heliports which have been reported to the FAA and do not include temporary heliports or offshore heliports.

The total number of reported helicopter landing areas has increased by 11.4 percent since 10/1/87. 94.9 percent of all U.S. helicopter landing sites are designated as private use, while 5.1 percent are designated as public use (an increase from 4.8 percent since 10/1/87).

The FAA's Landing Facility Database gives information on private and public use heliports. This information is now available through HAI's Helicopter Hotline. Some regional associations and states publish additional heliport data.

HAI is working with the National Association of State Aviation Officials (NASAO) to develop regional heliport directories. If your state is not participating in this effort, you are encouraged to ask your aviation officials to contact HAI or NASAO for information. This data is entered onto HAI's Hotline as it becomes available. Printed directories will be available during 1989. If you are interested in copies of these data, contact HAI's Director of Heliports and Technical Programs. Cost of these directories is to be determined.

If you own or operate a private heliport, HAI encourages you to permit others to use your facility on an emergency or special permission basis. Contact your state or HAI for details.

If a helicopter can take you in, a Saft battery can get you out.

SAFT More Power to You.

World Civil Helicopter Records

Class E-1 helicopters
Without payload

6/21/72
Altitude 12,442m/40,820ft

Jean Boulet (France)
Alouette SA 315-001 Lama
Artouste 111B 735 KW
Istres

3/26/66
Distance in a closed circuit 2,800.20km/1,739.96mi

Jack Schweibold (USA)
Hughes YOH-6A No. 24213
1 Allison T-63-A-5
Edwards AFB, California

4/6-7/66
Distance in a Straight line 3,561.55km/2,213.04mi

Robert G. Ferry (USA)
Hughes YOH-6A No. 24213
1 Allison T-63-A-5
Culver City, California to
Ormond Beach, Florida

9/1-30/82
Speed around the world 56.97kph/35.40mph

H. Ross Perot, Jr.,pilot (USA)
J.W. Coburn, co-pilot
Bell 206L-11 LongRanger
Allison 250-C28B, 435 hp
29 days, 3 hours, 8 minutes, 13 seconds

8/5/82-7/22/83
Around the world (solo) 56,765.38km/35,258mi

Dick Smith (Australia)
Bell JetRanger 111
Allison 250-C-20 J,420shp

12/14/70
Speed over a 3km course 348.971kph/216.839mph

Byron Graham (USA)
Sikorsky S-67
2 GE T-58
Windsor Locks, Connecticut

8/11/86
Speed over a 15kmm course 400.87kph/249.10mph

Trevor Egginton (UK)
Westland G-Lynx
2 Rolls Royce Gem MK-531
Yeovil, Somerset, England

Closed circuit

8/26/64
100km speed 340.15kph/211.35mph

Boris Galitsky (USSR)
Mil Mi-6; 2 TB-2BM
Podmoscovnoe

2/8/82
500km speed 345.74kph/214.84mph

Thomas Doyle (USA)
Sikorsky S-76
2 Allison 250-C-30, 640 shp
West Palm Beach, Florida

Class E-1a, light helicopters
Less than 500kgs/1,102 lbs

12/29/53
Altitude 4,789m/15,712ft

Jean Dubos (France)
SNCASO Djinn 2
Turbomeca Palouste
Villacoublay

10/19/85
Distance in a Closed circuit 88kms/196.29mi

Richard Fenwick
Robinson R22
1 Lycoming 0320
Toussus-Deauville-Toussus

5/11/82
Distance in a Straight line 263.615km/163.803mi

Ivan D. Blackburn (Canada)
Robinson R-22
Lycoming 0-320 124 hp
Patridge Point, Sudburg

5/11/82
Speed over a 3km course 176kph/109mph

Richard G. Kirkwood (Canada)
Robinson R-22wl
Lycoming 0-320, 124 hp
Sault Ste. Marie, Ontario

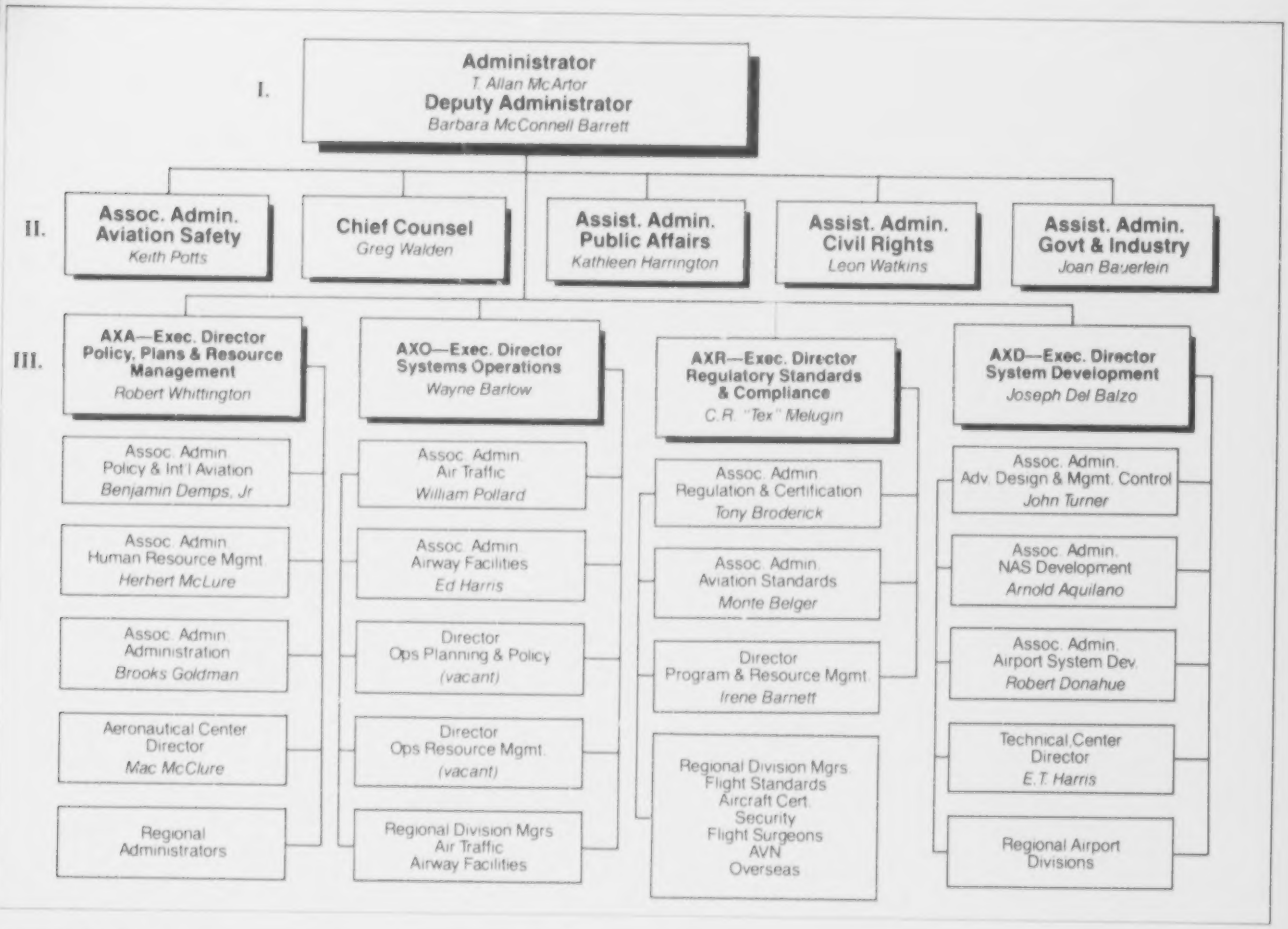
Civil Aviation Officials in the U.S.

A listing of key Department of Transportation and Federal Aviation Administration officials. Direct phone numbers and mail codes follow each listing. FAA regional headquarters and technical centers are also listed.

This year we have included a chart of the FAA structure to facilitate locating needed sections. The FAA offices below are listed in the order found on the chart. Levels I, II & III are clearly marked in the listings for guidance

FEDERAL AVIATION ADMINISTRATION



I.

UNITED STATES DEPARTMENT OF TRANSPORTATION

LIFETIME WARRANTY
AIRCRAFT MAINTENANCE AND INTERIOR REFURBISHMENT WARRANTY
Atlantic Aviation Corporation and Atlantic Aviation California, Inc. ("Atlantic") warrant that all work performed by Atlantic and any materials, fittings or equipment manufactured by it or to its detailed design will be free from defects in workmanship which would appear under conditions of normal use and service FOR AS LONG AS THE CUSTOMER OWNS OR LEASES THE AIRCRAFT.
ATLANTIC AVIATION
DONE RIGHT.
THIS AIRCRAFT WILL DEPART ON MAY 18, 1989
DATE
John F. Imbrugia
COORDINATOR
ATLANTIC AVIATION
ON TIME.

COMPLETE HELICOPTER SUPPORT FROM ATLANTIC AVIATION.

Our commitment is to do the job right the first time, on time. Last year, Atlantic met customer deadlines on the nose over 98% of the time.

For helicopter operators, our Wilmington, Delaware facility offers FAA Class IV unlimited repair capability that includes:

- Service for Bell, MBB and Sikorsky helicopters
- Allison 250 comprehensive service
- EMS interior design, manufacture and installation
- Contract maintenance service
- Interior modification and refurbishment capability
- Strip and paint
- Avionics installation, panel upgrades and service

Atlantic Aviation offers a lifetime warranty on workmanship on all aircraft maintenance and interior refurbishment. There is a five year or 3,000 flight hour warranty on paint. Contact Atlantic for all your helicopter service needs—(302) 322-7295.

ATLANTIC AVIATION

When you land, we fly.

U.S. AVIATION POLICY MAKERS

The following members of congressional committees form policy that affects helicopter operations directly and indirectly. The committee and subcommittee chairmen listed are those who were in the majority during the second year of the 100th Congress. Although no major leadership changes are expected in the 101st Congress, some changes in chairmanships are likely to occur.

HAI'S GUIDE TO OBTAINING A FEDERAL CONTRACT

The Federal Government is one of the biggest consumers of helicopters and helicopter services. How does a helicopter operator break into the government system? Getting that first contract can be a formidable task. HAI has prepared this guide to help members find their way through the bureaucracy, to win that federal contract.

Commerce Business Daily (CBD)

First you need to know which agencies are looking for your products and services. You'll find them in the CBD.

The CBD is a daily list of U.S. Government procurement invitations, contract awards, subcontracting leads, sales of surplus property and foreign business opportunities. It includes all proposed Department of Defense (DOD) procurements estimated to exceed $10,000 and civilian agency procurements exceeding $5,000.

You can purchase a subscription or get the CBD on-line. Rates are $261 a year (1st class mailing), $208 a year (2nd class). Six month trial subscriptions are available at $130 (1st class) and $104 (2nd class). Send your check to the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402-9371. Visa, MasterCard and Choice are also acceptable, call (202) 783-3238. To find more information on electronic editions call (202) 275-3328.

"Helicopter HOTLINE"

For up-to-the-minute information on federal helicopter contracts, consider an annual subscription to HAI's free service, the "Helicopter HOTLINE." The "HOTLINE" lists CBD contracts and much more to help you enhance your helicopter operation. Contact Ed DiCampli at (703) 683-4646.

Selling to the Military

The DOD publishes several publications explaining how to do business with the military. You can get these from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402, (202) 783-3238.

First take a look at the "Small Business Subcontracting Directory" ($7.00, order #008-0404-00195-4). This lists the names and addresses of the DOD's prime contractors, names and phone numbers of Small Business Liaison Officers, and products and services they provide.

Then look at "Selling to the Military" ($8.00, order #008-0000-00479-0). This publication explains how to locate sales opportunities, and describes how to find out which products and services the DOD wants to buy.

After you're familiar with the "players," get your firm on the activity bidders mailing list. Just contact any federal procurement office for a copy of the Standard Form. Fill out one SF-129 for each product or service you're qualified to bid on. Return the forms and you'll be put on the mailing list for solicitations.

"The Directory of Federal & State Business Assistance: A Guide for New and Growing Companies" ($29.00 plus $3.00 shipping and handling) is another useful source, available from the National Technical Information Service (NTIS), US Department of Commerce, Springfield, VA 22161 (703) 487-4650.

Other publications of interest include "VHF-AM Communications Equipment Selection and Installation Practices for Helicopters" by E.H. Bolz and L.D. King, U.S. Department of Transportation, 1985, available from NTIS, and the Forest Service Organizational Directory, Department of Agriculture, 1986.

Federal Offices Dealing Directly With Helicopter Contracts:

Navy Aviation Supply Office
700 Robbins Avenue
Philadelphia, PA 19111
(215) 697-2806

Special Operations Program Office ASD-AFZ
Wright-Patterson Air Force Base
Wright-Patterson, OH 45433
(513) 257-2324

Mr. Gene Hottel
CBM- Contract Management
Room 568
Crystal Plaza 5
2211 South Jefferson Davis Hwy.

Mrs. Ellyce Green
Contract Officer
Drug Enforcement Agency
1405 I Street, N.W.
Washington, D.C. 20537
(202) 633-2894

What Pat Walker doesn't know just saved her life.

This reconditioned Sikorsky S-76 EMS is roughly the same price as a much smaller, less capable helicopter.

But you'd never know it. Sikorsky's S-76 is the best EMS helicopter in the world, a flying emergency room with space for a medical team of four and a patient.

Modular design permits any EMS configuration to be set up quickly, from Trauma to Neonatal to organ transplant missions. Built originally for rugged offshore oil duty, the S-76 has a 400-mile range. And when it really matters, it can really move. Ask Pat Walker.

A number of previously owned S-76s are available now, each completely reconditioned for EMS use, at about half the original cost. For information, please telephone Robert L. Kelly at (203) 381-6150.

BUYERS' GUIDE

Heliprops

SAFE AND NEIGHBORLY

The Civil Helicopter

Significant data on helicopters manufactured by domestic and international airframe companies.

Today's helicopter fleet offers a broad range of aircraft, uniquely able to perform a variety of missions.

All data are listed in both English and Metric units of measure. In addition, such key data as maximum optional fuel capacity, engine horsepower, range with optional fuel and a listing of standard avionics provide a complete picture of each machine's capabilities.

This information is to be used solely as a guide. Helicopter capabilities will vary with flight conditions and installed options.

Data and operating limitations for specific missions are available from the manufacturer. A manufacturer's contact and phone number is listed for each model. Prices shown are subject to change by the manufacturer.

Manufacturer/Model Aerospatiale Lama
Total Production (all variants) 400 **First flight** 1969
Comments Specifications shown are for SA315B Lama. This aircraft holds absolute altitude record for helicopters of any category: 40,820 ft/12,442m by Jean Boulet in 1972.
Engine(s) Artouste III B1 **HP (takeoff)** 858 shp
Dimensions main rotor 36.2 ft/11 m **Tail rotor** 6.3 ft/1.9 m
Height 10.1 ft/3.1m **Length** 42.3 ft/12.9m **Width** 7.8 ft/2.4m
Empty weight 2,266 lbs/1,028 kg **Gross weight** 4,300 lbs/1,950 kg
Useful load 2,034 lbs/922 kg **External** 2,646 lbs/1,200 kg
Vne 113 kts/209 kmh **Max cruise** 103 kts/192 kmh
Max rate of climb 1,083 fpm/330 mpm
HIGE 16,565 ft/5,050m **HOGE** 15,100 ft/4,600m
Service ceiling 17,720 ft/5,400m **S/E service ceiling** N/A
Std fuel 152 gal/573 lit **Max fuel** N/A
Max range std fuel (no reserve) 278 nm/515 km
Range with opt fuel N/A
VFR Crew 1 **passengers** 4
Standard avionics None. Optional factory installed avionics available.
1989 base price ($U.S.) Please call
For more information contact Ron LaFleur (214)641-0000

Manufacturer/Model Aerospatiale Super Frelon
Total production (all variants) 105 **First flight** 1962
Comments Specifications shown are for SA321JA Super Frelon.
Engine(s) (3) Turbomeca Turmo III C6 **HP (takeoff)** 1,515 shp ea.
Dimensions main rotor 62.0 ft/18.9m **Tail rotor** 13.1 ft/4.0m
Height 21.9 ft/6.7m **Length** N/A **Width** 16.1 ft/4.9m
Empty weight 15,245 lbs/6,915 kg **Gross weight** 28,660 lbs/13,000 kg
Useful load 13,415 lbs/6,085 kg **External** 11,000 lbs/5,000 kg
Vne 148 kts/275 kmh **Max cruise** 134 kts/248 kmh
Max rate of climb 1,300 fpm/396 mpm
HIGE 6,230 ft/1,900m **HOGE** limited to 27,515 lbs/2,480 kg at sea level
Service ceiling 10,000 ft/3,050m **S/E service ceiling** *3,940 ft/1,200m on 2 engines. *One engine out. Two engine service ceiling.
Std fuel 1,030 gal/3,900 lit **Max fuel** 1,822 gal/6,897 lit
Max range std fuel (no reserve) 432 nm/800 km @ 126 kts/232 kmh
Range with opt fuel 764 nm/1,416 km
VFR Crew 2 **Passengers** 27
Standard avionics SFIM autopilot.
1989 base price ($U.S.) Out of production

Manufacturer/Model Aerospatiale Puma
Total production (all variants) 703 **First flight** 1965
Comments Specifications shown are for SA330J Puma.
Engine(s) (2) Turbomeca Turmo IV C **HP (takeoff)** 1,494 shp ea.
Dimensions main rotor 49.5 ft/15.1m **Tail rotor** 10.0 ft/3.0m
Height 16.9 ft/5.1m **Length** 59.8 ft/18.2m **Width** 9.8 ft/3.0m
Empty weight 8,358 lbs/3,792 kg **Gross weight** 16,315 lbs/7,400 kg
Useful load 7,957 lbs/3,608 kg **External** 7,055 lbs/3,200 kg
Vne 142 kts/263 kmh **Max cruise** 139 kts/258 kmh
Max rate of climb 1,200 fpm/366 mpm
HIGE 7,545 ft/2,300m **HOGE** 5,580 ft/1,700m
Service ceiling 15,750 ft/4,800m **S/E servcie ceiling** 7,220 ft/2,200m
Std fuel 408 gal/1,544 lit **Max fuel** 1,098 gal/4,156 lit
Max range std fuel (no reserve) 297 nm/550 km @ 134 kts/248 kmh
Range with opt fuel 799 nm/1,481 km
VFR Crew 2 **Passengers** 18
Standard avionics None. Optional factory installed avionics available.
1989 base price ($U.S.) Out of production.

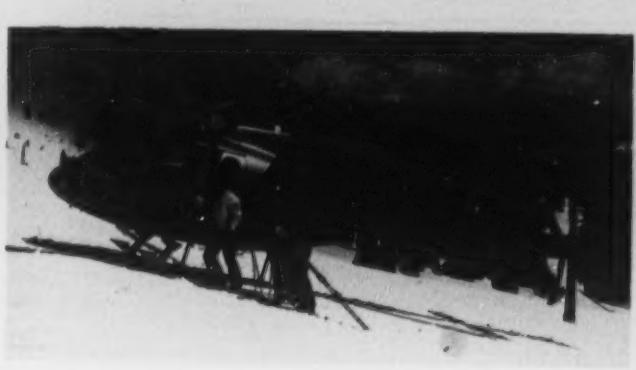
Manufacturer/Model Aerospatiale Gazelle
Total production (all variants) 1210 **First flight** 1967
Comments Specifications shown are for SA342J Gazelle.
Engine(s) (1) Turbomeca Astazou XIV H **HP (takeoff)** 592 shp
Dimensions main rotor 34.5 ft/10.5m **Tail rotor** 2.3 ft/0.7m
Height 10.5 ft/3.2m **Length** 39.3 ft/12m **Width** 6.6 ft/2m
Empty weight 2,164 lbs/982 kg **Gross weight** 4,190 lbs/1,900 kg
Useful load 2,026 lbs/918 kg **External** 1,540 lbs/700 kg
Vne 167 kts/310 kmh **Max cruise** 142 kts/264 kmh
Max rate of climb 2,010 fpm/613 mpm
HIGE 11,970 ft/3,650m **HOGE** 9,430 ft/2,875m
Service ceiling 14,105 ft/4,300m **S/E service ceiling** N/A
Std fuel 144 gal/545 lit **Max fuel** 197 gal/745 lit
Max range std fuel (no reserve) 407 nm/754 km @ 128 kts/238 kmh
Range with opt fuel 557 nm/1,032 km
VFR Crew 1 **Passengers** 4
Standard avionics None. Optional factory installed avionics available.
1989 base price ($U.S.) Civil version out of production
For more information contact Ron LaFleur (214)641-0000



Manufacturer/Model Aerospatiale Ecureuil AS 350 B
Total production (all variants) 1049 ("B" & "D") **First flight** 1976
Comments Specifications shown are for AS350B Ecureuil.
Engine(s) (1) Tubomeca Arriel 1B **HP (takeoff)** 641 shp
Dimensions main rotor 35.1 ft/10.7m **Tail rotor** 6.1 ft/1.9m
Height 10.3 ft/3.2m **Length** 42.6 ft/13m **Width** 8.3 ft/2.5m
Empty weight 2,458 lbs/1,115 kg (U.S.) **Gross weight** 4,300 lbs/1,950 kg
Useful load 1,842 lbs/835 kg (U.S.) **External** 2,000 lbs/907 kg
Vne 147 kts/272 kmh **Max cruise** 125 kts/232 kmh
Max rate of climb 1,555 fpm/474mpm
HIGE 9,675 ft/2,950m **HOGE** 7,380 ft/2,250m
Service ceiling 15,600 ft/4,750m **S/E service ceiling** N/A
Std fuel 137 gal/520 lit **Max fuel** 263 gal/995 lit
Max range std fuel (no reserve) 378 nm/700 km @ 121 kts/224 kmh
Range with opt fuel 726 nm/1,345 km
VFR Crew 1 **Passengers** 6
Standard avionics None. Optional factory installed avionics available.
1989 base price ($U.S.) $673,000
For more information contact Ron LaFleur (214)641-0000

Manufacturer/Model Aerospatiale Ecureuil AS 350 B1
Total production (all variants) 1049 ("B" & "D") **First flight** N/A
Comments Specifications shown are for AS350B1 Ecureuil.
Engine(s) (1) Tubomeca Arriel 1D **HP (takeoff)** 684 shp
Dimensions main rotor 35.1 ft/10.7m **Tail rotor** 6.10 ft/1.86m
Height 10.3 ft/3.14m **Length** 42.45 ft/12.94m **Width** 8.30 ft/2.53m
Empty weight 2,524 lbs/1,145 kg (US) **Gross weight** 4,850 lbs/2,200 kg
Useful load 2,326 lbs/1,055 kg (US) **External** 2,557 lbs/1,160 kg
Vne 147 kts/276 kmh **Max cruise** 123 kts/277 kmh
Max rate of climb 1,732 ft/min
HIGE 9,184 ft/2,800m **HOGE** 6,560 ft/2,000m
Service ceiling 14,440 ft/4,400m **S/E service ceiling** N/A
Std fuel 141 gal/535 lit **Max fuel** N/A
Max range std fuel (no reserve) 335 nm
Range with opt fuel N/A
VFR Crew 1 **Passengers** 5/6
Standard avionics None. Optional factory installed avionics available.
1989 base price ($U.S.) $760,000 (1989 Delivery)

When experience and commitment count.

For more than 40 years Airwork has led the aviation industry in providing technically-advanced engine maintenance and overhaul programs for fixed and rotary wing aircraft powerplants. Airwork offers factory-authorized overhaul and repair to Allison 250 operators at facilities in Millville, New Jersey, and Miami, Florida. Rental and exchange engines, exchange accessories and a wide inventory of factory new and rotable parts are also stocked in support of the Allison 250 program.

Committed to service through technology.

AIRWORK

UNC Aviation Group

The UNC Aviation Group *has a combined 155 years of aviation industry experience. Each is a Federal Aviation Administration Certified Repair Station.* ***Airwork, Pacific Airmotive*** *and* ***Aircraft Turbine Service*** *serve the corporate, commuter, commercial and military markets with factory-authorized overhaul and repair of all types of turbine engines and APUs.*

Millville Municipal Airport • Millville, New Jersey 08332 • 800-257-7077

The Xerox Ventura noble literature.

Ed DiCampli
Helicopter Association International

Rob Stern
Buckley's
Fancy Foods & Confections, Ltd.

Every year, people around the globe produce documents that are well thought out, beautifully designed, and make a strong impression in every way.

But up till now, almost all these documents have been created by professional designers. Who do this kind of thing every day for a living.

That's why we'd like you to take a good look at the documents in this ad. They're just a few of the winners from the first Xerox Ventura Publisher "Design For Excellence" contest. And they were created by some of our customers. They are not full-time designers, but people who work for a candy company, a major university, an aeronautics association and a small book company.

How were they able to produce documents like these? Easily. Even if you have no graphic design experience, Xerox Ventura Publisher can help you create great-looking documents right away. Which can make you comfortable with desktop publishing from the first day.

And the more you use this program, the more it grows with you. With Xerox Ventura Publisher, you get greater control over page design and layout, typestyles, and integration of graphics and text. So you can make every document look a lot more professional. From the simplest flyer to the most complex manual.

Jim Rose
Rose Publishing

For all these reasons. Xerox Ventura Publisher has been chosen by industry experts around the world as the best desktop publishing program, for everyone from novices to professionals. And it has become the best-selling desktop publishing program for MS-DOS systems and the IBM PS/2.

Of course, this is just one more example of Xerox leadership in document processing. Whether you're creating, copying, distributing, or filing, we take the most important assets in your office–ideas and information–and turn them into better documents. On screen or on paper.

If you'd like to know more, send us the coupon below or call 1-800-TEAM-XRX, ext. 144D (1-800-832-6979). We'll send you full information, and the name of your nearest Xerox Authorized Dealer. And we'll show you how to give this year's winners some real competition.

Yes, I'm interested in learning more about Xerox Ventura Publisher. Send this coupon to: Xerox Corporation, P.O. Box 24, Rochester, NY 14692

KHC 1989

Manufacturer/Model Boeing Model 234 ER (Extended Range)
Total production (all variants) 2 **First flight** 1983
Comments Two additional cabin fuel tanks increases fuel capacity to 3,078 gal. One tank with 32 seats or two tanks with 18 seats. Retains LR.
Engine(s) (2) Lycoming AL5512 **HP (takeoff)** 4,075 shp
Dimensions main rotor 60 ft/18.3m **Tail rotor** N/A
Height 18.6 ft/5.7m **Length** 99 ft/30.2m **Width** 15.7 ft/4.8m
Empty weight 26,500 lbs/12,020 kg **Gross weight** 48,500 lbs/22,000 kg
Useful load 22,000 lbs/9,979 kg **External** 28,000 lbs/12,700 kg
Vne 150 kts/278 kmh **Max cruise** 145 kts/269 kmh
Max rate of climb 1,180 fpm/360 mpm
HIGE 8,500 ft/2,590m **HOGE** 2,700 ft/823m @ 48,500 lbs/22,000 kg
Service ceiling 8,500 ft/2,590m **S/E service ceiling** 1,500 ft/457m
uel 3,078 gal/11,650 lit **Max fuel** N/A
Max range std fuel (no reserve) 1,136 nm/2,105 km
Range with opt fuel N/A
IFR Crew 2/3 **Passengers** 18 with 2 interior fuel tanks, 32 with 1 interior fuel tank.
Standard avionics None. Optional factory installed avionics available.
1989 base price ($U.S.) No longer in production.

Manufacturer/Model Boeing Model 234 Multipurpose Long Range (MLR)
Total production (all variants) 3 **First flight** 1985
Comments Multipurpose LR is designed for internal/external loads with minimal passenger amenities for 44 passengers.
Engine(s) (2) Lycoming AL5512 **HP (takeoff)** 4,075 shp
Dimensions main rotor 60 ft/18.3m **Tail rotor** N/A
Height 18.6 ft/5.7m **Length** 99 ft/30.2m **Width** 15.7 ft/4.8m
Empty weight 24,500 lbs/11,100 kg **Gross weight** 48,500 lbs/22,000 kg
Useful load 24,000 lbs/10,886 kg **External** 28,000 lbs/12,700 kg
Vne 150 kts/278 kmh **Max cruise** 145 kts/269 kmh
Max rate of climb 1,180 fpm/360 mpm
HIGE 8,500 ft/2,590m **HOGE** 2,700 ft/823m @ 48,500 lbs/22,000 kg
Service ceiling 8,500 ft/2,590m **S/E service ceiling** 1,500 ft/457m @ 48,500 lbs/22,000 kg
Std fuel 2,100 gal/7,948 lit **Max fuel** See 234 ER
Max range std fuel (no reserve) 720 nm/1,334 km
Range with opt fuel See 234 ER
IFR Crew 2 **Passengers** 44
Standard avionics None. Optional factory installed avionics available.
1989 base price ($U.S.) No longer in production.

Manufacturer/Model California Helicopter International S58T
Total production (all variants) 2,300+ **First flight** 1954 (S58)
1970 (S58T)
Comments Available with PT6T-3 or PT6T-6 engines.
Information shown is for -6 version.
Engine(s) (2) P&W PT6T-6 Twin Pac **HP (takeoff)** 1,875 shp
Dimensions main rotor 56 ft/17.07m **Tail rotor** 9.5 ft/2.90m
Height 15.92 ft/4.5m **Length** 50.92 ft/15.32m **Width** 5.66 ft/1.73m
Empty weight 7,577 lbs/3,436 kg **Gross weight** 13,000 lbs/5,896 kg
Useful load 5,423 lbs/2,460 kg **External** 5,000 lbs/2,250 kg
Vne 117 kts/216 kmh **Max cruise** 110 kts/204 kmh
Max rate of climb 1,220 fpm/372 mpm
HIGE 10,400 ft/3,170m **HOGE** 6,500 ft/1,981m
Service ceiling 12,800 ft/3,901m **S/E service ceiling** 4,300 ft/1,311m
Std fuel 283 gal/1,071 lit **Max fuel** 433 gal/1,645 lit
Max range std fuel (no reserve) 280 nm/518 km
Range with opt fuel 420 nm/777 km
VFR Crew 1 **Passengers** 18
Standard avionics VHF20, ADF60, VOR, VIR31.
1989 base price ($U.S.) Furnished upon request.
For more information contact California Helicopter (805)644-5800

Manufacturer/Model E.H. Industries, Ltd./EH 101
Total production (all variants) Under development **First flight** 1987
Comments Joint development/production between Westland Helicopters, Ltd. and Costruzioni Aeronautiche Giovanni Agusta Spa.
Engine(s) (3) GE CT7/6A **HP (takeoff)** 2,000 shp
Dimensions main rotor 61 ft/18.59m **Tail rotor** 13.13 ft/4.0m
Height 17.6 ft/5.35m **Length** 64 ft/19.5m **Width** 14.25 ft/4.34m
Empty weight 19,052 lbs/8,642 kg **Gross weight** 31,500 lb/14,288 kg
Useful load 12,448 lbs/5,642 kg **External** 15,000 lbs/6,804 kg
Vne 167 kts/309 kmh **Max cruise** 150 kts/277 kmh
Max rate of climb 2,200 fpm/670 mpm
HIGE 8,250 ft/2,515m **HOGE** 3,500 ft/1,067m
Service ceiling 15,000 ft/4,572m **S/E service ceiling** 12,900 ft/3,932m
Std fuel 348 gal/1,318 lit **Max fuel** 454 gal/1,719 lit
Max range std fuel (no reserve) 690 nm/1,277 km
Range with opt fuel 830 nm/1,537 km
VFR Crew 2 + 1 attendant **Passengers** 30
Standard avionics 4-axis automatic flight control system plus full EFIS cockpit.
1989 base price ($U.S.) TBA
For more information contact Roy Procter 1-995-8221 (UK)

Manufacturer/Model Enstrom Model F-28F Falcon
Total production (all variants) 61 **First flight** 1980
Comments Enstrom's emphasis on product support and the operator's needs is reflected in the 225 hp "F" series, which provides 2,600 lb gross weight. HIGE capabilities on an ISA + 30 degree day at 9,400 ft.
Engine Lycoming HIO-360-F1ADw/turbocharging **HP(continuous)** 225
Dimensions main rotor 32 ft/9.75m **Tail rotor** 4.7 ft/1.43m
Height 9 ft/2.74m **Length** 29.3 ft/8.9m **Width** 7.3 ft/2.23m
Empty weight 1,570 lbs/712 kg **Gross weight** 2,600 lbs/1,180 kg
Useful load 1,030 lbs/467 kg **External** 1,000 lbs/454 kg
Vne 97 kts/180 kmh (SL to 915m) **Max cruise** 97 kts/180 kmh
Max rate of climb 1,450 fpm/442 mpm
HIGE 13,200 ft/4,023m **HOGE** 8,700 ft/2,652m @ 2,350 lbs
HIGE 7,700 ft/2,347m @ 2,600 lbs
Service ceiling 12,000 ft/3,658m (max. op. alt.) **S/E service ceiling** N/A
Std fuel 42 gal/159 lit **Max fuel** 53 gal/207 lit
Max range std fuel (no reserve) 228 nm/423 km
Range with opt fuel 313 nm/580 km **VFR** Crew 1 **Passengers** 2
Standard avionics None. Optional factory installed avionics available.
1989 base price ($U.S.) $173,500
For more information contact Richard E. Loynachan (906)863-9971
Telex 261 912 fax: 906-863-6821

Manufacturer/Model Enstrom Model 280FX Shark
Total production (all variants) 25 **First flight** 1984
Comments T.C. Jan. 1985. Basic 280 series with new stabilizers, landing gear fairings, tail rotor driveshaft cover, restyled air inlet system, tail rotor guard.
Engine(s) (1) TurboLycoming HIO-360-F1AD **HP (continuous)** 225 shp
Dimensions main rotor 32.0 ft/9.75m **Tail rotor** 4.7 ft/1.43m
Height 9.0 ft/2.74m **Length** 29.3 ft/8.9m **Width** 7.3 ft/2.23m
Empty weight 1,585 lbs/719 kg **Gross weight** 2,600 lbs/1,180 kg
Useful load 1,015 lbs/460 kg **External** 1,000 lbs/454 kg
Vne 101 kts/188 kmh **Max cruise** 101 kts/188 kmh
Max rate of climb 1,450 fpm/442 mpm
HIGE 13,200 ft/4,023m **HOGE** 8,700 ft/TBA ft/2,652m @ 2,350 lbs
Service ceiling 12,000 ft/3,658m (max. op. alt.) **S/E service ceiling** N/A
Std fuel 42 gal/159 lit **Max fuel** 53 gal./201 lit.
Max range std fuel (no reserve) 260 nm/483 km
Range with opt fuel 348 nm/644 km
VFR Crew 1 **Passengers** 2
Standard avionics None. Optional factory installed avionics available.
1989 base price ($U.S.) $191,500
For more information contact Richard E. Loynachan (906)863-9971

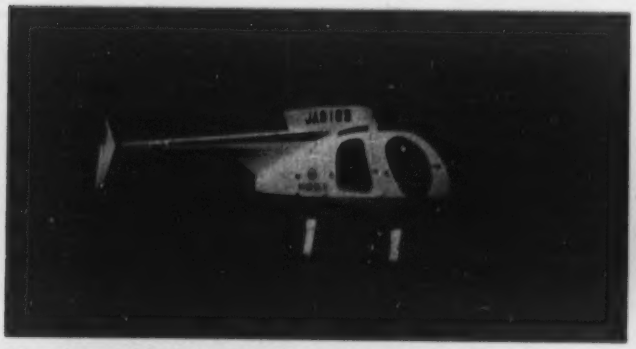
Manufacturer/Model Enstrom Model F28F-P Sentinel
Total Production (all variants) 4 **First Flight** 1987
Comments This model was specially configured for law enforcement. The Sentinel offers the same performance of the F28F except 28 volt electrical system and annunciator warning panel are standard.
Engine(s) Lycoming H10-360-F1AD w/turbo **HP (continuous)** 225
Dimensions main rotor 32 ft/9.75 m **Tail rotor** 4.7 ft/1.43 m
Height 9 ft/2.74 m **Length** 29.3 ft/8.9 m **Width** 7.3 ft/2.23 m
Empty weight 1,570 lbs/712 kg **Goss weight** 2,600 lbs/1,180 kg
Useful load 1,030 lbs/467 kg **External** 1,000 lbs/467 kg
Vne 97 kts/180 kmh (SL to 915 m) **Max cruise** 97 kts/180 kmh
Max rate of climb 1,450 fpm/442 mpm
HIGE 13,200 ft/4,023 m **HOGE** 8,700 ft/2,652 m @ 2,350 lbs
HIGE 7,700 ft/2,347 m @ 2,600 lbs
Service ceiling 12,000 ft/3,658 **S/E service ceiling** N/A
Std fuel 42 gal/159 lit **Max fuel** 53 gal/207 lit
Max range std fuel (no reserve) 228 nm/423 km
Range with opt fuel 313 nm/580 km **VFR Crew** 1 **Passengers** 2
Standard avionics Com radio, King KY196W/intercom, Transponder King KT 76A
1989 base price ($US) 179,900
For more information contact Richard E. Loynachan (906) 863-9971
telex: 261 912 fax: (906) 863-6821

Manufacturer/Model Hynes Aviation Industries, Inc. Model H2
Total Production (all variants) 720 **First Flight** 1956
Comments Military specification trainer and partrol helicopter also available on floats and as IFR trainer and with AG equipment, uses unique two section three bladed main rotor system.
Engine(s) Lycoming IVO-360-A1A **HP(takeoff)** 180 (134KW)
Dimensions Main rotor 23.7 ft/7.3m **Tail rotor** 4.3 ft/1.3m
Height 6.8 ft/2.1m **Length** 28.0ft/8.6m **Width** 5.8 ft/1.7m
Empty weight 1,020 lbs/463 kg **Gross weight** 1,670 lbs/757 kg
Useful Load 650 lbs/296 kg **External** 400 lbs/182 kg
Vne 85 kts/160 kmh **Max Cruise** 80 kts/145 kmh
Max rate of climb 1,900fpm/580mpm **HIGE** 6,700ft/2,040 **HOGE** N/A
Service ceiling 10,800 ft/3,290m **S/E service ceiling** N/A
Std fuel 31 gal/117 lit **Max fuel** 40 gal/150 lit
Max range std fuel(no reserve) 217 nm/400 km
Range with opt fuel 289 nm/530 km
VFR Crew 1 **Passengers** 1
Standard avionics none, optional factory installed avionics available
1989 base price ($U.S.) 94,950
For more information contact Michael K. Hynes, (405) 335-5754

Manufacturer/Model Hynes Aviation Industries, Inc. Model H5
Total production (all variants) 49 **First flight** 1964
Comments Military specification helicopter. Also used for U.S. Army Model H5T drone, remote controlled helicopter. Available on wheels, skids or floats. Uses unique two section, three bladed main rotor system. IFR trainer and AG models available
Engine Lycoming IVO-540-AIA **HP(takeoff)** 305 hp/227.5 kw
Dimensions Main rotor 28.0 ft/8.6m **Tail rotor** 4.3 ft/1.3m
Height 8.0 ft/2.5m **Length** 33.0 ft/10.0m **Width** 7.0 ft/2.2m
Empty weight 1,800 lbs/817 kg **Gross weight** 2,900 lbs/1,315 kg
Useful Load 1,100 lbs/500 kg **External** 800 lbs/365 kg
Vne 104 kts/193 kmh **Max Cruise** 96 kts/177 kmh
Max rate of climb 975fpm/297mpm **HIGE** 4,080 ft/1,245 **HOGE** N/A
Service ceiling 12,000 ft/3,660m **S/E service ceiling** N/A
Max range std fuel(no reserve) 250 nm/215 km
Range with opt fuel 375 nm/320 km
VFR Crew 1 **Passengers** 1
Standard avionics None. Optional factory installed avionics available.
1989 base price ($U.S.) 164,950
For more information contact Michael K. Hynes, (405) 335-5754



Manufacturer/Model Kawasaki Heavy Industries, Ltd./ Kawasaki-Hughes H500 series
Total production (all variants) 306 **First flight** 1967
Comments Manufactured unc license from Hughes Helicopter. A lightweight high performance 5 seat helicopter.
Engine(s) (1) D.D. Allison 250-C20B (D model) **HP (takeoff)** 420 shp
Dimensions main rotor 26.42 ft/8.05m **Tail rotor** 4.58 ft/1.40m
Height 8.94 ft/2.72m **Length** 30.5 ft/9.30m **Width** 6.79 ft/2.07m
Empty weight 1,369 lbs/621 kg **Gross weight** 3,000 lbs/1,361 kg
Useful load 1,631 lbs/740 kg **External** 2,181 lbs/989 kg
Vne 152 kts/282 kmh **Max cruise** 139 kts/258 kmh
Max rate of climb 1,875 fpm/572 mpm
HIGE 8,500 ft/2,591m **HOGE** 7,400 ft/2,256m
Service ceiling 14,700 ft/4,481m **S/E service ceiling** N/A
Std fuel 64 gal/242 lit **Max fuel** N/A
Max range std fuel (no reserve) 260 nm/481 km
Range with opt fuel N/A
VFR Crew 1 **Passengers** 4
Standard avionics None. Optional factory installed avionics available.
1989 base price ($U.S.) N/A
For more information contact Maomi Yakushiji (03) 435-2495

Manufacturer/Model Kawasaki Heavy Industries, Ltd./BK117 A-4
Total production (all variants) 20 **First flight** 1979
Comments A true multi-purpose light-twin helicopter jointly developed by Kawasaki and MBB of West Germany. Safety, reliability and versatility are the prime design objectives.
Engine(s) (2) Avco-Lycoming LTS101-650B-1 **HP (takeoff)** 550 shp ea.
Dimensions main rotor 36.09 ft/11m **Tail rotor** 6.42 ft/1.956m
Height 11.02 ft/3.36m **Length** 42.65 ft/13m **Width** 8.86 ft/2.70m
Empty weight 3,660 lbs/1,660 kg **Gross weight** 7,056 lbs/3,200 kg
Useful load 3,396 lbs/1,540 kg **External** N/A
Vne 150 kts/278 kmh **Max cruise** 134 kts/248 kmh
Max rate of climb 1,900 fpm/582 mpm
HIGE 4,900 ft/1,490m (17kt cross wind) **HOGE** 5,900 ft/1,800m
Service ceiling 15,000 ft/4,572m @ 3,000 kg **S/E service ceiling** 4,200 ft/1,280m
Std fuel 158 gal/598 lit **Max fuel** 240 gal/910 lit
Max range std fuel (no reserve) 261nm/484km (at best range speedS/L)
Range with opt fuel 401 nm/742 km, S/L
(The above data are based on 3,200 kg gross weight except stated).
VFR Crew 1 **Passengers** 10 **Standard avionics** 1 VHF (CollinsVHF-251).
1989 base price ($U.S.) N/A
For more information contact Maomi Yakushiji (03) 435-2495

Manufacturer/Model Kawasaki Heavy Industries, Ltd./Kawasaki Bell 47/G3B-KH4
Total production (all variants) 439 **First flight** 1961 (KH4)
Comments Manufactured under the license from Bell Helicopter. KH4 was a modified version of 47G3B to accommodate one crew and three passengers, and the best seller in Japan.
Engine(s) (1) Avco-Lycoming TVO-435 **HP (takeoff)** 260 shp
Dimensions main rotor 37.13 ft/11.32m **Tail rotor** 5.84 ft/1.78m
Height 9.3 ft/2.84m **Length** 43.63 ft/13.3m **Width** 9.46 ft/2.88m
Empty weight 1,850 lbs/839 kg **Gross weight** 2,850 lbs/1,293 kg
Useful load 1,000 lbs/454 kg **External** 1,000 lbs/454 kg
Vne 91 kts/168 kmh **Max cruise** 75 kts/139 kmh (5,000 ft)
Max rate of climb 850 fpm/259 mpm
HIGE 18,000 ft/5,486m **HOGE** 15,000 ft/4,572m
Service ceiling 18,500 ft/5,639m **S/E service ceiling** N/A
Std fuel 53 gal/201 lit **Max fuel** N/A
Max range std fuel (no reserve) 214 nm/397 km (5,000 ft)
Range with opt fuel N/A
VFR Crew 1 **Passengers** 3
Standard avionics None.
1989 base price ($U.S.) Out of production.

Manufacturer/Model Messerschmitt-Boelkow-Blohm GmbH BO105LS A-3
Total production (all variants) N/A **First flight** 1981 (LS version)
Comments The most powerful production light twin engine helicopter, with outstanding performance in hot environments and at high density altitudes.
Engine(s) (2) Allison 250-C28C **HP (takeoff)** 550 shp
Dimensions main rotor 32.35 ft/9.84m **Tail rotor** 6.17 ft/1.9m
Height 9.08 ft/3.0m **Length** 38.09 ft/11.8m **Width** 8.35 ft/2.53m
Empty weight 3,153 lbs/1,430 kg **Gross weight** 5,732 lbs/2,600 kg
Useful load 2,579 lbs/1,170 kg **External** 2,200 lbs/1,000 kg
Vne 145 kts/269 kmh **Max cruise** 132 kts/244 kmh
Max rate of climb 1,820 fpm/555 mpm (2,080 fpm w/5,291 gr. wt)
HIGE 11,500 ft/3,500m **HOGE** 8,370 ft/2,550m
S/E service ceiling 5,900 ft/1,800 m
Std fuel 150 gal/567.8 lit **Max fuel** N/A
Max range std fuel (no reserve) 278 nm/515 km
Range with opt fuel N/A
VFR Crew 1 **Passengers** 5 **Max. op. alt.** 20,000 ft./6,100 (mgw)
Standard avionics None. Optional factory installed avionics available.
1989 base price ($U.S.) Furnished upon request.
For more information contact Andy Aastad (215) 431-4150, Ext. 387

Manufacturer/Model Messerschmitt-Boelkow-Blohm GmbH BK 117 B-1
Total production (all variants) 175 **First flight** 1987 (B-1 version)
Comments Medium, twin-engine multipurpose helicopter with 200 cubic feet of continuous cabin space. It incorporates the proven technology found in the BO 105.
Engine(s) (2) Lycoming LTS-101-750 B1 **HP (takeoff)** 550 shp ea.
Dimensions main rotor 36.09 ft/11m **Tail rotor** 6.29 ft/1.92m
Height 11.02 ft/3.36m **Length** 32.74 ft./9.98m **Width** 8.17 ft/2.5m
Empty weight N/A **Gross weight** 7,056 lbs/3,207 kg
Useful load 3,417 lbs/1,557 kg **External** N/A
Vne 150 kts/278 kmh **Max cruise** 136 kts/251 kmh
Max rate of climb 1,910 fpm/582 mpm
HIGE 9,600 ft/2,930m **HOGE** 7,500 ft/2,290m
Service ceiling 15,000 ft/4,572m (approx 6614 gw)
S/E service ceiling 5,800 ft/1,770m (150 fpm climb reserve)
Std fuel 183 gal/891 lit **Max fuel** 235 gal/1,091 lit
Max range std fuel (no reserve) 308 nm/570 km
Range with opt fuel 400 nm/740 km
VFR Crew 1 **Passengers** 9
Standard avionics None. Optional factory installed avionics available.
1989 base price ($U.S.) Furnished upon request.
For more information contact Andy Aastad (215)431-4150, Ext. 387

Manufacturer/Model McDonnell Douglas Helicopter Company 530F
Total production (all variants) 90 **First flight** 1982
Comments Hot day/high altitude version of Model 500 series Incorporates all features of 500E plus larger rotors, high gross weight.
Engine(s) (1) Allison 250-C30 **HP (takeoff)** 425 shp/max contin. 350 shp
Dimensions main rotor 27.4 ft/8.34m **Tail rotor** 4.8 ft/1.45m
Height 8.6 ft/2.62m **Length** 32.1 ft/9.77m **Width** 6.5 ft/1.97m
Empty weight 1,564 lbs/709 kg **Gross weight** 3,100 lbs/1,406 kg
Useful load 1,536 lbs/697 kg **External** 2,000 lbs/907 kg
Vne 175 mph/282 kmh **Max cruise** 155 mph/250 kmh
Economic Cruise Speed 150 mph/241 kmh. Sea level true air speed.
Max rate of climb 2,100 fpm/10.6 mps. Sea level, takeoff power.
HIGE 14,200 ft/4,328m **HOGE** 12,000 ft/3,568m
Service ceiling 16,000 ft/4,877m **S/E service ceiling** N/A
Std fuel 64 gal/242 lit 403 lbs/183 kg **Max fuel 115 gal/435 lit**
Opt fuel 21 gal 136.5 lbs/61.5 kg **Max range std fuel (no reserve)** 275 st mi/443 km (5,000 ft) **Range with opt fuel** 379.5 st mi/610 km
Fuel Flow 34 gph./128.7 lit./hr. **VFR Crew** 1 **Passengers** 4
Standard avionics None. Optional factory installed avionics available
1989 base price ($U.S.) $625,000

Manufacturer/Model McDonnell Douglas Helicopter Company 500E
Total production (all variants) 3,825 **First flight** 1982
Comments The 500E is the latest version of the Model 500 series which began in 1962 with the US Army OH-6A. It incorporates important changes in comfort and styling reccommended by the customer.
Engine (1) Allison 250-C20B **HP (takeoff)** 375 shp/max contin. 350 shp. CZOR is available as an option also.
Dimensions main rotor 26.4 ft/8.04m **Tail rotor** 4.6 ft/1.4m
Height 8.7 ft/2.66m **Length** 30.8 ft/9.39m **Width** 6.5 ft/1.97m
Empty weight 1,441 lbs/654 kg **Gross weight** 3,000 lbs/1,361 kg
Useful load 1,559 lbs/707 kg **External** 2,000 lbs/907 kg
Vne 175 mph/282 kmh **Max cruise** 169 mph/272 kmh
Economic cruise speed 143 mph/230 kph. Sea level true air speed.
Max rate of climb 3,240 fpm/16.5 m/sec. Sea level, takeoff power.
HIGE 8,500 ft/2,591m **HOGE** 6,000 ft/1,859m (max gr wt)
Service ceiling 14,700 ft/4,418+ m **S/E service ceiling** N/A
Std fuel 64 gal/242 lit 403 lbs/183 kg **Opt fuel** 21 gal 132 lbs/60 kg Max range std fuel (no reserve) 367 nm/590 km (5,000 ft) **Range with opt fuel** 506.5 nm/815 km **Fuel Flow** 28 gph/106 liters/hour **VFR Crew** 1 **Passengers** 4 **Standard avionics** None. Optional factory installed avionics available.
1989 base price ($U.S.) $470,000

Manufacturer/Model Robinson R22 Beta
Total production (all variants) 720 **First flight** 1975
Comments Top selling piston helicopter used for powerline patrol, flight training, herding, TV & feature filming, traffic watch, photography, law enforcement, construction & oil industry support, executive & personal transport, fish spotting.
Engine(s) (1) Lycoming 0-320-B2C **HP (takeoff)** 160 hp derated to 131 hp
Dimensions main rotor 25.2 ft/7.7m **Tail rotor** 3.5 ft/1.1m
Height 8.75 ft/2.7m **Length** 28.75 ft/8.8m **Width** 6.33 ft/1.9m
Empty weight 824 lbs/374 kg **Gross weight** 1,370 lbs/621 kg
Useful load 546 lbs/248 kg **External** None
Vne 102 kts/189 kmh **Max cruise** 96 kts/178 kmh
Max rate of climb 1,000 fpm/305 mpm
HIGE 6,970 ft/2,124m **HOGE** 5,200 ft
Service ceiling 14,000 ft/4,267m **S/E service ceiling** N/A
Std fuel 19.2 gal/72.7 lit **Max fuel** 29.7 gal
Max range std fuel (no reserve) 209 nm/386.3 km
Range with opt fuel 323 nm/598.2 km
VFR Crew 1 **Passengers** 1
Standard avionics King KY 197 COMM transceiver with intercom.
1989 base price ($U.S.) $96,850 includes dual controls, rotor brake, night lights and rate-of-climb.
For more information contact Barbara K. Robinson (213) 539-0508

Manufacturer/Model Rogerson Hiller Corporation UH12E
Total production (all variants) 1000+ **First flight** 1958
Comments None.
Engine(s) (1) Lycoming VO 540-C2A **HP (takeoff)** 340 shp
Dimensions main rotor 35.40 ft/10.78m **Tail rotor** 5.50 ft/1.67m
Height 10.08 ft/3.07m **Length** 28.5 ft/8.68m **Width** 4.9 ft/1.5m
Empty weight 1,759 lbs/797.87 kg **Gross weight** 3,100 lbs/1,406.14 kg
Useful load 1,341 lbs/608.27 kg **External** 1,000 lbs/453.59 kg
Vne 96 kts/177.79 kmh **Max cruise** 78 kts/144.46 kmh
Max rate of climb 1,290 fpm/193.19 mpm
HIGE 10,400 ft/3,169.92m **HOGE** 6,800 ft/2,072.64m
Service ceiling 15,000 ft/4,572m **S/E service ceiling** N/A
Std fuel 46 gal/174.13 lit **Max fuel** 86 gal/325.55 lit
Max range std fuel (no reserve) 210 nm/389 km
Range with opt fuel 405 nm/750 km
VFR Crew 1 **Passengers** 2
Standard avionics None. Optional factory installed avionics available.
1989 base price ($U.S.) N/A

AVIATION INSURANCE THAT MAKES THE POSSIBLE...PRACTICAL

Call Larry Mattiello, toll free, for a no-obligation coverage review.

Innovations in equipment, innovations in service. Aviation is a tough business, one that requires a commercial operator to constantly look for new ways to get the job done faster, safely, more comfortably, and with little or no increase in overhead. Your insurance coverage should play a big part by giving you the latitude to change and grow to meet the challenges of competition.

Alpha-designed and managed coverage programs have been proven to balance minimum risk with minimum cost for helicopter operators nationwide. As representatives of the finest domestic and international aviation insurance companies, Alpha's rotary-wing specialists can provide you with a comprehensive program that covers aircraft, ground equipment, facilities, passengers and cargo.

MEMBER PRODUCT AND SERVICE DIRECTORY

The pages that follow include HAI Associate and Regular Operator member companies that provide certified products, supplies or services to the civil helicopter industry.

This index has been organized alphabetically by the designated products and/or services offered by each HAI member firm. Each product or service sub-heading is then listed in alphabetical sequence according to the member's company name.

Operator members are noted with a • following their name. The ■ indicates the telex number and the ♦ indicates the fax number. For additional information on any of the products or services offered by these HAI member firms, please contact the company directly.

Count on Castleberry

THE INSTRUMENT SPECIALISTS

When you need an instrument serviced, you need it today! You can COUNT ON CASTLEBERRY to provide instrument overhaul and repair for over 15,000 unique part numbers. In many cases, a Castleberry exchange can be provided for immediate shipment from our extensive inventory of exchange instruments. Our 85 technicians are at your service when quick turn-time can save the day.

Whether your needs are for general aviation, corporate, rotor wing, or airlines instruments, the INSTRUMENT SPECIALISTS at Castleberry are ready to serve you ... 24 hours a day ... 7 days a week.

For complete details, please contact:

HOW DO YOU IMPROVE ON A LORAN THAT HAS CONSISTENTLY OUTSOLD THE COMPETITION?

WORLD'S MOST COMPREHENSIVE DATABASE

Take it from us, it wasn't easy . . . but Il Morrow's new 618 "Super Bandit" features the world's most comprehensive database with over 20,000 WAYPOINTS. Every airport in our database includes information about radio frequencies, runway lengths, lighting, fuel

THE COMPETITION IS "BEATEN UP"

Our efficient design provides all the latest Loran features in a small package, without requiring external cooling!

Our two main competitors either recommend or REQUIRE external cooling. Imagine what that extra heat could be doing to the other avionics in your radio stack!

RATED NO. 1 BY PILOTS

The "Super Bandit" is the newest member in a family of Lorans rated No. 1 for User Friendliness, Technical Performance and Accuracy.*

These and many other "super" features are in the new 618, but then you've come to expect products like this from the No. 1 [illegible] manufacturer in the world.

So visit your local Il Morrow dealer today and "test fly" the "Super Bandit" . . . it's really [illegible] but affordable by pilots who aren't!

[illegible]SEARCH capability in the indus[illegible] Pushing two but[illegible] simultaneously gives you access to the 25 closest AIRPORTS, VORs, NDB's or INTERSECTIONS . . . a lot of "alternatives" [illegible] is starting to hear a roughness in the [illegible] notices "significant weather" ahead.

TURN YOUR 612 INTO A 618

Call us to find out how!

Owning a sleek new helicopter is not something to dream about—it's good business. The Enstrom 280FX offers an economical, turbo-charged piston engine delivering cruising speeds of 110 mph. With an unobstructed view of the world, superior comfort and room for three, an Enstrom can take you anywhere—sometimes for business, sometimes for pleasure but *always* with *class*.

"The Enstrom Experience" is now available on videocassette. Send your name, address and $15 to:

ENSTROM HELICOPTER CORPORATION
P.O. BOX 277

SOME KING-SIZED REASONS TO CHARTER SOUTHERN AIR.

When you're shipping something as large as King Kong or as fragile as an entire helicopter, think big and call Southern Air.

We're the only US carrier able to offer the oversized capacity of 17 versatile L-100 Hercules—able to deliver bulk, palletized or combination cargo to any location around the world. No matter how remote.

And with our fleet of 12 hushkitted Boeing 707's, our immediate availability, worldwide operating authority and quick turnaround time, we can help you with Ad Hoc Charters, project support or scheduled contract services.

And that's no small feat. Call Southern Air at **1-800-327-6456.**

To Ensure a Healthy Future for the Civil Helicopter Industry and Profession

Join with fellow helicopter professionals to support these critical issues:

Educate Congress and the Administration on issues that threaten the survival of the civil helicopter industry.

Increase awareness of the important role and value of the helicopter in regional and national transportation systems.

Demonstrate collective strength and concern among helicopter professionals over changes to laws and regulations governing our industry.

Your support of our effort will ensure a strong message to federal lawmakers concerning issues of mutual interest within the civil helicopter industry.

HeliPAC contributions are voluntary and not a condition of membership.

HeliPAC

Treasurer, Wanda L. Rogers

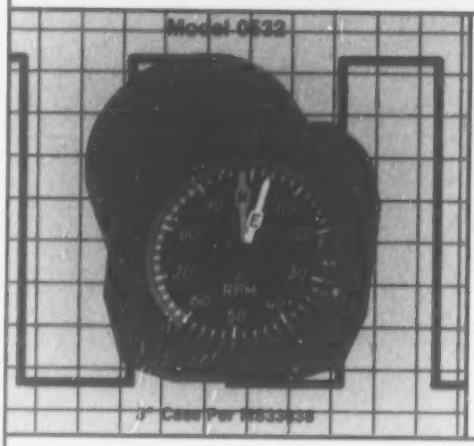
IN-STEP
Instrument Line

DESIGNED FOR RELIABILITY.
DESIGNED FOR HELICOPTERS.



- All Digital System with Hall Effect Sensors
- Excellent System Accuracy
- High Resistance to Vibration
- High Resistance to RFI/EMI
- Operating Temperature −30 °C to +70 °C
- Excellent Long-Term Stability
- Auto Return to Zero
- No Mechanical Cable-Drive
- Low Cost

What your company has for sale

Yes! Why not do a direct mail campaign ...
Let the International Helicopter industry know;

1. What you have to sell, services you have to offer
2. When your new products will be available
3. Why your company is different from the rest.

HELICOPTER INFORMATION SERVICES, INC.: **is your own direct mail company.**
We **are** your direct link to the helicopter industry.
We reach 10,000 helicopter owners and operators world wide.
Call **Michelle** at **312-480-1410,** or **Lauren** at **314-335-3300**
FAX 314-335-1346
We are not brokers, nor dealers, nor suppliers.
We are simply an information service to the helicopter industry.

Is there a helicopter in your future ?

If there is...
you should plan to attend the

42nd Annual Meeting & Industry Exposition
of
the Helicopter Association International
in
Dallas, Texas, February 4-6, 1990

Join the thousands
who will visit the world's largest and
most important civil helicopter marketing forum
of over 250 companies, occupying more than
300,000 square feet of convention space

Give your business the
edge that makes the difference.

Come to Dallas!

Helicopter Association International
1619 Duke Street
Alexandria, VA 22314-3439

MEMBERSHIP DIRECTORY

Heliprops

SAFE AND NEIGHBORLY

Alphabetical Listing of Member Operators Worldwide

HAI member listings include detailed information on personnel, service operations and equipment. The ■ indicates the telex number and the ♦ indicates the company's fax machine number.

Immediately following the alphabetical directory is the member operators matrix of services. The vertical axis is organized geographically by state or country, then by city within the state. The horizontal axis alphabetically lists services provided by each HAI member operator.

We recommend the use of HAI member operators whenever possible, as they subscribe to the HAI Code of Ethics.

Computerized

MAINTENANCE
MALFUNCTION
INFORMATION
REPORTING

Service
Designed to enhance your Maintenance Information Needs

Why use the MMIR system?

The computerized MMIR system gives you the ability to analyze:

- **Component Malfunctions for a specific Airframe Model**
- **Component Malfunctions within a given A.T.A. Code (Chapter and/or Section)**
- **Complete Airframe Malfunction History**
- **History of Corrective Actions for a given Problem by Component, A.T.A. Chapter/ Section or Airframe**

Get the information you need to make that decision quickly and accurately!

HAI Wants You to FLY NEIGHBORLY

What's it all about?

- **Reducing helicopter noise**
- **improving community relations**
- **Achieving public acceptance of the helicopter**
- **Civil and military cooperation**

Started seven years ago, helicopter pilots, managers, operators, and communities throughout the United States have applauded this innovative approach to helicopter noise reduction. Through training, flight operations planning, and sensitivity to community concerns, operators learn how they can contribute to greater public acceptance of the helicopter.

Call or write HAI's Director of Heliports and Technical Programs, Ron Bunch, for a copy of HAI's Fly Neighborly Guide and for information on sponsoring or attending a Fly Neighborly Seminar near you.

HAI'S SALUTE TO EXCELLENCE AWARDS PROGRAM

Since 1960, the Helicopter Association International's Salute to Excellence Awards Program has recognized the dedication, loyalty and excellence of individuals and organizations from every sector of the helicopter industry. The 1988 Salute to Excellence Awards reflect our continued drive for excellence in a dynamic industry. By recognizing the extraordinary merit of an individual or organization, HAI applauds and encourages the attainment of higher standards of professionalism.

Please take the time to honor a colleague.

HAI will accept nominations until November 1, 1989 for the following thirteen prestigious awards:

- ★ Lawrence D. Bell Memorial Award
- ★ Excellence in Communications Award
- ★ Crew of the Year Award
- ★ Fly Neighborly Award
- ★ Helicopter Maintenance Award
- ★ MBB Golden Hour Award
- ★ McDonnell Douglas Law Enforcement Award
- ★ Outstanding Certified Flight Instructor Award
- ★ Pilot of the Year
- ★ Raise Your Sites! Award
- ★ Safety Award
- ★ Max Schumacher Memorial
- ★ Robert E. Trimble Memorial Award

Award Nomination Forms are available from:
Helicopter Association International
1619 Duke Street
Alexandria, VA 22314-3439
or call 703-683-4646.

HAI'S HELICOPTER HOTLINE

is ready to give you the information that you need to survive in today's competitive business environment. All that you need is just a computer call away...

- Employment Opportunities
- Government Contracts
- Critical Airworthiness Directives
- Manufacturer's Alerts
- FAA Proposed Regulations
- Safety Information including Preliminary Accident Reports
- Industry News

HAI has entered the high tech world of information telecommunications. The Helicopter Hotline is running standard communications software on an IBM PC-AT compatible machine with two modem lines, 703-683-6488 and 89 or telephone Ed DiCampli, Information Manager, at 703-683-4646, for details on how you can hook-up to the Hotline. Keep up to date on the latest developments in the industry. It's the only way to stay one step ahead of the competition.

Helicopter Foundation International

Needs Your Help To

1 Preserve your helicopter heritage and history-the story of people and machines. Through the HFI Archives, your history is preserved. Also, you and the public can learn about the many aspects of the rich history of helicopters. Helicopter models, documents, photos, memorabilia, rare books and publications provide a tremendous source for information, general knowledge and research.

2 Develop helicopter safety programs while increasing public awareness of helicopter safety and versatility.
In conjunction with government and industry, HFI will develop new, industry-wide, safety programs that provide the operators, planners and manufacturers with useful safety information. These programs also will develop a greater public acceptance of the helicopter's increasing role in civil aviation.

3 Aid individuals seeking training and education in helicopter related fields.
HFI will assist through financial aid and scholarships for those people who demonstrate an interest and ability to contribute to the helicopter industry.

TO ACCOMPLISH THESE MANY WORTHWHILE EFFORTS, HFI NEEDS FUNDS. WON'T YOU JOIN HFI IN THIS IMPORTANT ENDEAVOR?

For information on how you can help through your tax deductible contributions contact:

James A. Hamilton Chairman,
HFI Executive Committee, or
John Slattery, Curator, HFI Archives

Rotor Blades are turning fast at RBI!

Rotor Blades Inc., a division of Aeronautical Accessories, is placing new emphasis on turn-around time for rotor blade overhaul and repair. RBI's commitment to you, our customer, is to reduce your down-time while maintaining a high degree of quality workmanship on all repairs and maintenance. And, to further meet your needs for improved service and lower cost, expansion plans are now under way for an Eastern U.S. facility.

Contact RBI *now* and get back in the air *fast.*

JOIN THE WORLD OF HAI...

Helicopter Association International

Since 1948, the Helicopter Association International has been the leaders of the civil helicopter industry. Our membership includes helicopter operators and owners, users, manufacturers and suppliers, service organizations, other groups with a common interest in helicopters and interested individuals. Members are classified according to their role in the industry.

Listed below are our membership classifications. Where do you belong?

REGULAR MEMBERS

Regular (voting) members are organizations which operate civil helicopters as a principal business, in private use as a business tool or in public service. HAI has not had a dues increase since 1982. And no such increase is contemplated. In fact, last year we actually reduced dues for one and two ship operators.

Annual dues for Regular Membership is based upon the number of helicopters operated.

Commercial-Corporate/Private

1	$250
2	$400
3-5	$500
6-19	$600
20-39	$1,000
40 or more	$1,400

Public Service

1	$250
2-4	$300
5-14	$430
15 or more	$500

ASSOCIATE MEMBERS

Associate members provide certificated products, supplies or services to the civil helicopter industry and/or are lessors of helicopters rather than an operator.

Annual dues for Associate Membership is based upon the gross revenue of the company or division applying for membership.

Associate A - A prime airframe, rotor, or engine manufacturer directly engaged in the manufacture or development of helicopters, rotors, helicopter equipment for helicopters, and offering a certified product to the industry.

A-1 —	$100M or more — $10,000	A-2 —	$50M-$100M — $7,000
A-3 —	$15M-$50M — $6,000	A-4 —	$15M or below — $4,500

Associate B - Manufacturers and suppliers of products and services other than as applicable to Associate A.

B-6 —	$5M or more — $1,000	B-7 —	$1M-$5M — $800
B-8 —	$251K-$1M — $600	B-9 —	$250K or less — $225

SUSTAINING MEMBERS

A Sustaining Member is any individual interested in following the events of the civil helicopter industry, or who is an employee of an HAI member company. Officers, directors or employees of firms that qualify for Regular or Associate membership, but are not HAI members, are not eligible.

Annual dues for Sustaining Members is $50.

STUDENT MEMBERS

A Student Member is any individual interested in following the events of the civil helicopter industry that is a full or part time student in a flight training or A&P school, or a college or university.

Annual dues for Student Members is $30.

AFFILIATE MEMBERS

Affiliate Members are national, regional and international organizations whose purpose and interests are similar to those of HAI. Affiliate Members do not pay dues.

For further information and/or a membership application, please use the response cards provided.

Services: Buy and sell used Bell helicopters in international market. Major airframe engine and avionics work on helicopters.

HAI'S SALUTE TO EXCELLENCE AWARDS PROGRAM

Since 1960, the Helicopter Association International's Salute to Excellence Awards Program has recognized the dedication, loyalty and excellence of individuals and organizations from every sector of the helicopter industry. The 1988 Salute to Excellence Awards reflect our continued drive for excellence in a dynamic industry. By recognizing the extraordinary merit of an individual or organization, HAI applauds and encourages the attainment of higher standards of professionalism.

Please take the time to honor a colleague.

HAI will accept nominations until November 1, 1989 for the following thirteen prestigious awards:

- ★ Lawrence D. Bell Memorial Award
- ★ Excellence in Communications Award
- ★ Crew of the Year Award
- ★ Fly Neighborly Award
- ★ Helicopter Maintenance Award
- ★ MBB Golden Hour Award
- ★ McDonnell Douglas Law Enforcement Award
- ★ Outstanding Certified Flight Instructor Award
- ★ Pilot of the Year
- ★ Raise Your Sites! Award
- ★ Safety Award
- ★ Max Schumacher Memorial
- ★ Robert E. Trimble Memorial Award

Award Nomination Forms are available from:
Helicopter Association International
1619 Duke Street
Alexandria, VA 22314-3439
or call 703-683-4646.

HAI'S HELICOPTER HOTLINE

is ready to give you the information that you need to survive in today's competitive business environment. All that you need is just a computer call away...

- Employment Opportunities
- Government Contracts
- Critical Airworthiness Directives
- Manufacturer's Alerts
- FAA Proposed Regulations
- Safety Information including Preliminary Accident Reports
- Industry News

HAI has entered the high tech world of information telecommunications. The Helicopter Hotline is running standard communications software on an IBM PC-AT compatible machine with two modem lines, 703-683-6488 and 89 or telephone Ed DiCampli, Information Manager, at 703-683-4646, for details on how you can hook-up to the Hotline. Keep up to date on the latest developments in the industry. It's the only way to stay one step ahead of the competition.

HAI Wants You to FLY NEIGHBORLY

What's it all about?

- **Reducing helicopter noise**
- **Improving community relations**
- **Achieving public acceptance of the helicopter**
- **Civil and military cooperation**

Started seven years ago, helicopter pilots, managers, operators, and communities throughout the United States have applauded this innovative approach to helicopter noise reduction. Through training, flight operations planning, and sensitivity to community concerns, operators learn how they can contribute to greater public acceptance of the helicopter.

Call or write HAI's Director of Heliports and Technical Programs, Ron Bunch, for a copy of HAI's Fly Neighborly Guide and for information on sponsoring or attending a Fly Neighborly Seminar near you.

Helicopter Association International

HAI works for the helicopter industry.
HAI works for its members.
And HAI will work for you.

Join the Helicopter Association International and you can take advantage of its many benefits and services. As an HAI member you get:

★ **The Annual Meeting and Industry Exposition.**
The most concentrated gathering of qualified buyers anywhere.

★ **Participation in safety seminars, operator management courses, and other educational programs.**

★ **Subscription to ROTOR Magazine, The Helicopter Annual, OPERATIONS Update, Preliminary Accident Reports and Malfunction or Defect Reports.**
Copies of important industry publications: Visibility Unlimited, Heliport Development Guide, Safety Manual, Aeronautical Decision Making for Pilots, Fly Neighborly Guide, and others.

★ **Participation in HAI Award Programs.**

★ **Access to the Helicopter Hotline.**
You get up-to-the-minute information on proposed legislation, manufacturer alerts, critical airworthiness directives, government contracts, employment opportunities, and more.

★ **Options to participate in HAI's new Hull and Liability Insurance Program.**

★ **A voice in Washington, DC, state capitals, and access to international civil organizations.**
HAI has the attention of regulatory agencies. We provide a unified voice in opposition to restrictive helicopter legislation and cooperate with regional/international helicopter organizations.

★ **An option to influence the industry by participating in HAI's nineteen service/support technical committees.**

Find out how you can become part of this vital and growing organization. Call HAI's Membership Manager at: 703-683-4646, or write to HAI, 1619 Duke Street, Alexandria, VA 22314-3439

Is there a helicopter in your future ?

If there is...
you should plan to attend the

42nd Annual Meeting & Industry Exposition
of
the Helicopter Association International
in
Dallas, Texas, February 4-6, 1990

Join the thousands
who will visit the world's largest and
most important civil helicopter marketing forum
of over 250 companies, occupying more than
300,000 square feet of convention space

Give your business the
edge that makes the difference.

Come to Dallas!

Helicopter Association International
1619 Duke Street
Alexandria, VA 22314-3439
Telephone: 703-683-4646

THE COST OF INSURANCE HAS COME DOWN TO EARTH

INTRODUCING A HULL AND LIABILITY PROGRAM THAT WILL SUBSTANTIALLY SAVE ON INSURANCE COSTS.

In cooperation with Helicopter Association International, Aviation Insurance Center, Inc. has developed the most exciting helicopter insurance program ever offered.

This program, underwritten by Century Indemnity Company (A CIGNA Company), provides insurance at a very affordable rate for single engine helicopters with a maximum capacity of seven persons, while enhancing safety through regularly scheduled pilot checks and maintenance inspections.

All personal & business flying is covered and most commercial uses including instruction. The program also covers student pilots who are participating in a factory approved training program. There are special sales demo rates for factory distributors/service centers.

Exclusively endorsed by: Aerospatiale Helicopter Corporation, Bell Helicopter, Textron, Schweizer Aircraft Corporation, Helicopter Association International.

Don't wait. Call today (215) 374-4040 for more information about this cost savings program, or send for FREE KIT.

ROBINSON R22

The top selling piston helicopter since 1981

IFR TRAINER

POLICE VERSION

R22 MARINER

- 110 MPH Cruise Speed
- Lowest Initial Cost
- Lowest Operating Cost
- 7 to 8 Gal. Per Hour
- 1000 Hour/1 Year Warranty
- 2000 Hour Engine TBO
- 2000 Hour Airframe TBO
- Over 100 Service Centers

Used in 25 countries worldwide for...

- Fish Spotting • Cattle Herding
- Pipeline Patrol • Law Enforcement
- Security Patrol • Aerial Photography
- Radio Traffic Watch • Primary and IFR Training • Personal and Business
- Construction Site Support

More R22s are sold every year than any other piston helicopter. Shouldn't you find out why?

SPECIFICATIONS

Max Airspeed (Vne)	118 MPH	Gross Weight	1,370 LB
Max Range	over 300 Miles	Empty Weight Equipped	826 LB
Maximum Ceiling	14,000 Feet	Normal Fuel (19.2 Gallons)	115 LB
Hover Ceiling IGE	6,970 Feet	Aux Fuel (10.5 Gallons)	63 LB
Hover Ceiling OGE	5,200 Feet	Pilot, Passenger & Baggage	429 LB

High Performance...Best Efficiency...Lowest Cost

Helicopter Annual Year in Review

1988 was an extraordinary year of accomplishment for HAI...its Board of Directors, Committee Chairmen, Special Advisors and staff.

One of the most successful HAI Annual Meetings ever was held in Anaheim to start this year of achievements which included the premier of HAI's new, four-color quarterly magazine, ROTOR... a significant feat in its own right!

HAI continued its role as a key booster in ongoing developments with the proponents of HH600--an ambitious plan to build 600 new heliports on land and offshore in Japan-- and its sister organization, Japan Heli-Network (JHN). HAI launched a monthly newsletter, "Operations Update," to keep its membership informed of regulatory, technical and safety matters.

An even stronger rapport was established with the Federal Aviation Administration--particularly with its administrator, T. Allan McArtor, and the top echelon FAA executives.

Among the association's most impressive accomplishments was the introduction of HAI's Hull and Liability Insurance Program which fulfills a crucial need within the industry. This program will be even more important when the insurance market cycles back into the realm of high premiums--the leading industry problem just three years ago!

HAI thanks its elected leaders for their strength and patience in laying the groundwork for that program, and other exciting, ground-breaking HAI member-service programs.

HAI, and the civil helicopter industry which it represents, can take pride in these and many additional accomplishments which, together with the efforts of others, have brought our industry to even greater heights of safety, effectiveness and public acceptance.

JANUARY, 1988

HAI President Frank L. Jensen, Jr. met with FAA Administrator T. Allan McArtor to discuss FAA enforcement actions, and how they were severely injuring many operator members. Mr. McArtor reacted very favorably and initiated subsequent meetings with the leaders of AOPA, EAA, HAI, GAMA, NATA and NBAA to discuss the enforcement situation. The administrator showed a clear intention of fostering an attitude of compliance, rather than deterrence, within the FAA. (Unfortunately, this policy has not been fully instituted within the FAA.)

Jensen and HAI's Director of Safety and Flight Operations, Glenn A. Leister, joined a panel which discussed helicopter safety during the National Geographic Society's Twenty-first Annual meeting of photographers and editors. Jensen and Leister, joined by HAI member Bruce Erion, gave specific data on helicopter safety statistics, photographic support capabilities, and information on how to contact and contract with helicopter operators. Jensen and Leister donated their $1,000 in speakers' honorariums to the Helicopter Foundation International following the meeting.

Jensen and HAI's Director of Member Services, Daniel P. Warsley, developed a preliminary business plan and editorial format for ROTOR magazine-- a new, four-color quarterly publication to replace the association's former prime communications tool, Rotor News. An advertisers' prospectus for ROTOR was developed and distributed to attendees at HAI's 40th Annual Meeting.

AT FAA's request, HAI assisted in the planning of an industry review of the Rotorcraft Master Plan to be held in the summer.

HAI's Maintenance Malfunction Information Report (MMIR), used for reporting aircraft service difficulties, was automated by Westec Aerospace, Inc. a Canadian firm specializing in aviation software programs. HAI's Director of Heliports and Technical Programs, Ronald C. Bunch, was instrumental in finalizing the agreement.

Leister gave a presentation on helicopter and heliport safety to airport and city planners at the Georgia Tech Airport Noise and Land Use Planning Workshop.

HAI's Member Services department wrote and had printed a new "Guide to Member Services" brochure.

HAI announced the theme for its 41st Annual Meeting and Industry Exposition, "HELIPROPS...Safe and Neighborly."

FEBRUARY, 1988

Annual Meeting Highlights:

HAI's 40th Annual Meeting and Industry Exposition was held Feb. 7-9 in Anaheim. More than 8,700 professional registrants attended. The show attracted 256 exhibitors in 744 booths. Fifty helicopters were on display in the hall. At the second annual Helicopter Awareness Day, more than 30 ships, including the McDonnell Douglas NOTAR (no tail rotor) model, were flown to the Anaheim Stadium parking lot where 8,000 visitors, over and above the 8,700 professional registrants, viewed the ships and asked questions about their operation. HAI Chairman Stephen R. Sullivan, Aris Helicopters, Ltd., served as distinguished master of ceremonies for HAI's 27th Annual Awards Banquet.

Vernon E. Albert, Petroleum Helicopters, Inc., was elected new HAI chairman-elect with his term beginning July 1, 1988; Frederick A. Moore, Okanagan Helicopters, Ltd., vice chairman; Matthew S. Zuccaro, Damin Aviation Corp., treasurer; and Robert D. Fox, Evergreen Helicopters, Inc., assistant treasurer. Robert B. McNab, Edwards and Associates, and John Anderson, Data General, were elected to the HAI Board of Directors.

HAI's second annual EMS Safety Seminar discussed the marked improvement in EMS safety. The 1987 EMS safety record was three times better than the 1986 rate. HAI's EMS Safety Seminars, industry cooperation and the EMS safety guidelines, were major reasons for the increase in EMS safety.

The first Annual General Membership breakfast attracted more than 250 persons. Rotorcraft Roundtable VI, co-chaired by Matt Zuccaro and John Anderson, also was a great success.

Vernon E. Albert and Charles W. Johnson, ERA Aviation, Inc., co-chairmen for the 1989 annual meeting, met with their committee to discuss the 1989 show theme, "HELIPROPS...Safe and Neighborly."

Other important HAI activities during the month:

HAI was represented at: a meeting of the National Fire Protection Association (NFPA) Technical Committee on Helicopter Facilities; the second meeting of the NASA/HAI EMS Safety Network; and at a meeting of the NARE Executive Committee including FAA Administrator McArtor. HAI's top issues included: Minimum Equipment Lists, deferred maintenance, and crew performance/certification.

MARCH, 1988

HAI President Jensen met with industry representatives regarding the Safety Through Accurate Technical Statistics (STATS) program. Representatives included: the FAA, Bell Helicopter Textron, Allison Gas Turbines, Advance Aviation Concepts and Air Track. STATS is an ongoing industry-supported project initiated by HAI to provide accurate and meaningful statistics on helicopter fleet size, flying time and safety.

HAI, Bell Helicopter Textron, Aerospatiale and Aviation Insurance Center met in Dallas-Fort Worth to further implement details on HAI s Hull and Liability Insurance Program.

Vice Chairman Albert and President Jensen met with representatives of the FAA to discuss enforcement policies and procedures. Progress was made, including HAI's publication of the "Interim Guidance for Conducting In-depth Inspections" under Part 135. This document includes the FAA's National Aviation Safety Inspection Program Annual Report, and an update on Part 135 Minimum Equipment Lists.

President Jensen attended a U.S. Department of Commerce briefing on United States/Canadian free trade.

Chairman Sullivan was a speaker and Jensen a session moderator at the FAA's Rotorcraft '88 program at Atlantic City, NJ.

Jensen and officers of Damin Aviation met with Congressman Frank J. Guarini (D-NJ), concerning excise tax exemption.

Dr. Ted Okumura, of the Japanese Heliport and Highway 600 project, visited HAI Headquarters to setup a mid-April visit by a 15-man delegation including Japanese Congressman Bunsei Sato.

APRIL, 1988

HAI's Executive Committee, including chairman Stephen R. Sullivan, vice chairman Vernon E. Albert, treasurer, Frederick A. Moore, assistant treasurer, Matthew S. Zuccaro, public relations advisor, Rob W. Mack and president Frank L. Jensen, Jr., conducted a joint meeting with the top leaders of the Helicopter Association of Florida, and attended the official opening ceremony for the Skyport Heliport at Miami International Airport. While there, they also visited twenty-six operators in the south Florida area gathering information about each operation, and exchanging knowledge on HAI's activities. Chairman Sullivan wrote about the activities of those operators in the premier edition of HAI's quarterly magazine, ROTOR.

HAI hosted a visit by representatives of the Japanese delegation of Heliports and Highways 600 (HH600) and Japan's Heli-Network. This visit included briefings by the Japanese for nine aviation-trade associations, a briefing for representatives of the FAA, the Department of Commerce and the National Transportation Safety Board. The Japan Heli-Network Study Group also became an Affiliate Member of HAI.

HAI's Operations Department published Volume 1 Number 1 of its monthly newsletter, "Operations Update" a publication for Regular Members, Associate Members who operate helicopters and Affiliate Members. The newsletter is intended to alert operators about significant regulatory and operational activities, and has received many favorable comments on its usefulness.

Members of the HAI staff as well as EMS Committee Chairman Russ Spray and Safety Committee Chairman Loren Doughty attended the FAA's EMS Seminar in Fort Worth, TX.

MAY, 1988

The premier edition of ROTOR, HAI's new, quarterly four-color magazine, "By the Industry and for the Industry" was published and mailed to readers within the civil helicopter industry, the U.S. Congress and Senate, the Federal Aviation Administration, the National Transportation Safety Board and other rotary-related aviation organizations.

15,000 copies are published quarterly with the remaining copies distributed at aviation gatherings including major airshows and conventions. Based on informal studies, which estimate 2.5 readers per issue, ROTOR has an annual readership of 150,000!

As publisher Jensen wrote in the first edition, "ROTOR has a bold editorial challenge: to intelligently and responsibly address the critical issues--including safety, operational, and legislative--which daily face the decision-makers of our industry."

Chairman Sullivan was an invited guest at the Fort Worth roll-out of the V-22 tilt-rotor.

Chairman Sullivan and president Jensen met with Mr. Bob Goodrich, FAA's Director of Flight Standards, regarding the status of HAI's request for exemption on single-engine Minimum Equipment Lists. (Mr. Goodrich responded favorably and the exemption approval was received in June, 1988.)

Representatives of HAI, the FAA and Hawaiian helicopter operators met in Alexandria, VA to work towards improving public perception of helicopter tour operations in the Hawaiian islands. Letters detailing efforts to improve operator Fly Neighborly efforts were drafted for mailing to the governor of Hawaii, and the FAA administrator.

Director Leister presented a paper on VFR System Improvements for helicopter operations at the annual meeting of the AIAA.

Director Bunch visited Westland Helicopters, Ltd., the British Helicopter Advisory Board, the European Helicopter Association and Air Hanson Ltd., during a personal visit to Great Britain.

President Jensen met privately with former Japanese Prime Minister Y. Nakasone and his son Dietman Nakasone. During the visit, Jensen and the Nakasones discussed the HH600 program, a forthcoming visit to Japan by Jensen and Chairman Sullivan, and Mr. Nakasone's then upcoming visit with President Reagan.

JUNE, 1988

HAI's Executive Committee and Board of Directors met in Alexandria, VA. New directors, voting for the first time, were Robert B. McNab, Edwards and Associates, representing commercial operators, and John A. Anderson, Data General, representing corporate operators. Barry J. New, Rolls-Royce Ltd., joined the Board as engine representative and co-chairman of the Manufacturers' Committee.

President Jensen, with approval from the HAI Board, signed the agreement with Aviation Insurance Center (AIC) for the milestone HAI Hull and Liability Insurance program. The underwriter is CIGNA Corp.

The FAA amended HAI's MEL exemption by deleting a condition which would have required all Part 135 operators of single-engine helicopters to maintain their aircraft under a continuous airworthiness maintenance program, regardless of aircraft size.

Assistant Treasurer Matthew Zuccaro did a desk audit of HAI staff positions for the purpose of establishing priorities for the organization and assuring the proper utilization of staff time and resources.

Chairman Sullivan and President Jensen, under sponsorship of the Japan Heli-Network, travelled to Japan where they made presentations at symposiums in Beppu, Kyushu and Tokyo.

HAI contributed significantly to the FAA-industry ongoing review of the Rotorcraft Master Plan.

HAI's Warsley premiered the new, professionally-narrated HAI slide show at the ROTAF meeting. The majority of comments from the more than forty who watched the slide show were highly favorable.

HAI mailed "Authorization to Solicit" cards to the membership for permission to ask for contributions to the political action committee,"HeliPAC."

Legislative Manager Matthew Ubben attended Congressional hearings by: the Committee on Public Works and Transportation on its investigation into the role of the FAA in drug enforcement; the House Subcommittee on Transportation, Aviation and Materials on bills concerning aviation safety; the Senate Judiciary Subcommittee on Courts and Administrative Practice regarding the General Aviation Accident Liability Standards Act; and by the House Public Works Subcommittee on Investigations and Oversight on the FAA's Safety Enforcement Program.

JULY, 1988

Vernon E. Albert, vice president and chief pilot of Petroleum Helicopters, Inc., became HAI's 32nd Chief Executive Officer.

HAI's Emergency Medical Services Committee met in Toledo, Ohio.

HAI's Board of Directors named Hyman Hillenbrand chairman of HAI's Legal Committee.

HAI's Bunch attended a review meeting on the state of West Virginia's aviation plan. West Virginia has no zoning restrictions to impede heliport growth, and is a strong state for possible heliport development.

President Jensen made a presentation on HAI's computerized MMIR before attendees at the Dayton Air Show.

The second edition of ROTOR magazine was published. The acceptance of this new magazine by readers and advertisers alike was extremely encouraging.

HAI staff members were interviewed by reporters from the following media: Japan Aviation Press, International Aviation News, Helicopter News, and Business and Commercial Aviation.

HAI mailed out 6,500 survey forms to registered owners of helicopters as part of the Safety Through Accurate Technical Statistics (STATS) program. More than 2,000 responses, relating to fleet inventory and flying time, were received and entered into an HAI data base.

AUGUST, 1988

HAI's Executive Committee met in Vancouver, British Columbia as guests of vice chairman Fred Moore, Okanagan/Canadian Helicopters, Inc. The committee also visited Okanagan's facilities.

HAI wrote the first policy under its Hull and Liability Insurance Program providing coverage on a new JetRanger belonging to Peter Pfendler, founder of Polaris Aircraft Leasing. With its strict regimen of pilot training and aircraft maintenance inspections, the HAI program made hull and liability insurance affordable for new helicopter owner/operators.

President Jensen accepted an appointment to the Board of Directors of the General Aviation Market Expansion (GAME) Plan. This is a practical program to boost general aviation business, including helicopters. A multi-million dollar advertising campaign was launched with favorable results.

HAI staff continued work on the following major activities: 1989 Annual Meeting and Industry Exposition; 1989 Helicopter Annual; third edition of ROTOR magazine; sales of exhibit space and advertising in support of the annual meeting and publications; a Voluntary Settlement Insurance Program; a Helicopter User's Guide containing marketing and safety tips coordinated with HAI's Safety Committee; and creating a new class of HAI individual members, to include maintenance technicians, pilots and students.

HAI celebrated its third anniversary of operation in its Alexandria, VA headquarters. The Association-owned land and building are a tribute to the far-sighted leadership of HAI's CEO's and Board under whose guidance the building was selected and purchased.

SEPTEMBER, 1988

Chairman Albert, President Jensen and Director McNab represented HAI at the Farnborough Air Show where they attended key meetings including one with Captain Eric Brown, chairman of the European Helicopter Association (EHA).

Chairman Albert travelled to Washington, D.C. for a meeting regarding the new Executive Director structure of the FAA.

President Jensen attended a working luncheon at the White House, with Chief of Staff Kenneth Duberstein, along with 34 other officials of the Small Business Legislative Council, covering issues ranging from appropriations to Congress' labor-related agenda.

HAI members called for assistance involving helicopter use in fighting forest fires throughout the west coast. One problem was the heavy use of military helicopters in place of available commercial helicopters. HAI contacted the Interagency Fire Center in Boise, Idaho and received timely cooperation in resolving this issue.

The 1988 Helicopter Annual was selected third place winner in a national desktop publishing design competition sponsored by Xerox Corp. Ed DiCampli, HAI's manager of information systems, designed the award-winning program.

HAI was represented at: the National EMS Information Resources Conference; the ASHBEAMS annual meeting; the Model Heliport Ordinance meeting; and the Eastern Region Helicopter Council safety meeting.

The following HAI committees also met: Economics, EMS, Heliport Promotion and Development, Heliport Technical Planning, Flight Operations, and Legislative Advisory.

OCTOBER, 1988

HAI's Executive Committee and Board of Directors met in Dallas. HAI also was well represented and quite busy at the annual meeting of the National Business Aircraft Association (NBAA).

During NBAA, HAI held meetings of: the Public Relations Advisory Council, the Economics Committee, the Executive Committee of the Helicopter Foundation International and the Engine Trend subcommittee.

President Jensen and Meetings and Marketing Manager, Amanda L. Harrison, met with the president of the New Orleans Convention Center, executives of the New Orleans Convention Bureau, and the chairman of the New Orleans Convention Authority preparatory to HAI's 41st Annual Meeting and Industry Exposition to be held Jan. 15-17, 1989.

President Jensen attended a national press conference in New York City for the General Aviation Market Expansion (GAME) plan.

Jensen, Leister, Ubben and Warsley attended a debate at the National Press club between representatives of the two main candidates for president of the United States regarding their candidates' proposed aviation policies. This debate was arranged by the AERO Club of Washington for which Jensen is membership chairman.

The Heliport Technical Planning Committee met and received working group reports on Model Ordinance, Heliport Safety and Heliport Development Cuide projects.

Jensen met with Barry New, Rolls-Royce, Ltd., co-chairman of HAI's Manufacturers Committee, to establish the agenda for the committee's meeting in New Orleans during the HAI show.

HAI hosted a meeting with C.R. "Tex" Melugin, FAA Executive Director for Regulations and Compliance, and FAA's Colonel "Pete" Kacergius, to acquaint them with HAI's ongoing activities in their new areas of responsibility. HAI also hosted a meeting with FAA's Keith Potts, Associate Administrator for Aviation Safety, and Rick Weiss, the Manager of FAA's Flight Operations and Maintenance Division.

NOVEMBER, 1988

Chairman Albert and President Jensen attended the General Aviation Advisory Committee (GENAVAC) meeting in Washington, D.C. which included top elected and appointed leaders of the General Aviation trade associations.

Albert and Jensen attended the annual FAA/industry awards presentation to the CFI and Mechanic of the Year held at FAA headquarters in Washington, D.C.

Chairman Albert was a panelist at the Radio Technical Commission for Aeronautics (RTCA) annual meeting.

President Jensen, and members of the Public Relations Advisory Council (PRAC), met to discuss finalization of a script for the AHS/HAI Image Enhancement videotape to be premiered at HAI's 41st Annual Meeting.

HAI's Legislative Advisory Committee met at HAI's Alexandria, VA headquarters to discuss the status of aviation issues in the upcoming 101st Congress.

HAI announced three new courses for presentation during the annual meeting: "Human Resources Management in Aviation," "Marketing to the Helicopter World," and "Microcomputers and Helicopter Applications." These advanced seminars were developed in response to requests from HAI members and other industry leaders.

HAI staffers were interviewed by several key publications, including Business and Commercial Aviation, for pre-HAI show publicity.

HAI's new telephone system was installed. This state-of-the-art system will greatly facilitate telephone communications through a computerized "automatic receptionist" providing, among other benefits, voice mail, minimizing the need for repetitive calls for information about HAI services.

DECEMBER, 1988

HAI's Executive Committee and PRAC met in Alexandria, VA.

HAI's annual award selection committee met to choose the winners of the 28th Annual HAI Awards. PRAC chairman Mack had prepared an analysis of the HAI's awards program for the Board of Directors.

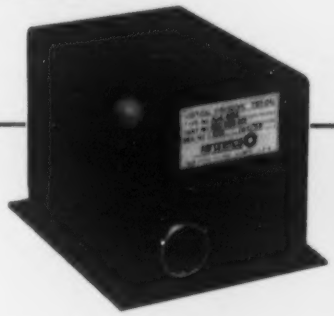
President Jensen was a panelist at the FAA's Research and Development panel discussion.

HAI staff completed work on the 1989 Helicopter Annual which was typeset and laid out entirely in-house through HAI's desktop publishing program. Editor Dan Warsley, Managing Editor Ed DiCampli, and Associate Editors Kate Miller and Jennifer Parker, received special praise from Publisher Jensen for their time and painstaking effort in production of this award-winning directory.

HAI published the Winter, 1988 edition of ROTOR magazine. ROTOR has completed its first full year of publication, and has already exceeded initial objectives (in terms of size, circulation and advertising) by 50% !

Helicopter Association International

Something New On The Horizon From AERONETICS®



With greater accuracy, reliability and lower cost of ownership we introduce our new RVG-801 Remote Vertical Gyro. The new RVG-801 provides the stability, quality and reliability you've come to expect from Aeronetics®.

Developed using the latest in computer-aided design and electronic circuitry, special details include: lightweight design, hermetically sealed, manual test of roll and pitch axes before take-off and simplified design to minimize cost of ownership. Plus it's backed by a 2 year limited warranty.

For more information contact your local dealer or call us direct. (312) 688-3040
Aeronetics®, 455 Kehoe Boulevard, Carol Stream, IL 60188

AERONETICS
A Division of AAR Brooks & Perkins Corp.

Designed to help you really fly

HAI PUBLICATIONS

Helicopter Operating Cost Estimates

A comprehensive standardized guide to airframe and engine manufacturer operating cost estimates to assist helicopter operators to project, track and record direct and indirect operating expenses. Published by Aerospace Industries Association of America in cooperation with HAI. (1987, 36 pgs.) **Price:** Distributed free-of-charge as long as supply lasts.

Safety Manual

An extensive guide to assist helicopter operators in developing a company safety program based on the proper procedures essential to accident prevention. The manual includes suggested company policy and procedures, medical and human factors, accident prevention programs, maintenance and survival programs and more. It contains 14 sections and Appendix A: the Helicopter Safety Reference Guide (HSRG) which was developed by Richard H. Wood, PE, CSP, and lecturer on the faculty of the University of Southern California, Institute of Safety and Systems Management. (The HSRG is sold separately at $20 for members, $30 non-members. Shipping & handling $3 within the U.S., $5 international). (1984 and revisions of the Safety Manual, 175 pgs.)
Price: One copy of the Safety Manual is provided free-of-charge to HAI Regular Members upon approval of membership. Associate Members may request a copy in writing. Other HAI members may order a copy of the manual for $95, non-members $115. Shipping & handling $15 within the U.S., $30 int'l.

Visibility Unlimited

A public communications manual for helicopter operators outlining how to establish and maintain community and public relations, Visibility Unlimited explains essential tools including how to write a press release and handle media communications.
Price: The first copy free to Regular members. Other HAI members $15, non-members $20. Shipping and handling $3 within the U.S., $5 int'l.

Technical Reports and Papers

FAA Research and Engineering Bibliography

This publication contains executive summaries, or abstracts, from fifty technical reports and documents on operations completed by the FAA in the last few years. It provides an excellent background on FAA policy for people and companies interested in a quick review of advancements in helicopter technology. (1986, 105 pgs.)
Price: HAI members $15, non-members $25. Shipping & handling $3 within the U.S., $5 int'l.

Community Rotorcraft Benefits & Opportunities

A report to assist planners in assessing and planning for the use of rotorcraft transportation in their communities, it also provides information on helicopter research and operating opportunities and benefits. Published in coordination with NASA and the American Planning Association. (180 pgs)
Price: HAI members $10, non-members $25. Shipping & handling $3 within the U.S., $5 int'l.

Helicopter Career Information

Your Career in Helicopter Operations

A brochure that outlines the helicopter industry, opportunities available in the industry and the general requirements for becoming a helicopter pilot.
Price: Distribution free-of-charge.

Pilot/Mechanic Training Schools

This listing is a handy reference to HAI member flight and mechanic schools in the U.S. and Canada. (If your organization offers training services, contact HAI to be included in the directory.) (5 pgs.)
Price: Distribution free-of-charge.

The Helicopter Hotline

The Helicopter Hotline

The **HELICOPTER HOTLINE** is HAI's computerized bulletin board. It offers such useful information as safety updates (including PAR's) legislative news, employment and trade opportunities, important industry events and much more. Access the HOTLINE with your modem at (703)683-6488. Best of all, **it's free.**

HOW TO ORDER YOUR HAI PUBLICATION

To order any publication listed above, you may telephone HAI, 703-683-4646, send us a written request or send in the HAI Publications Response Card provided at the center of this Annual.

For accurate delivery of your publication(s), please include your name, address and telephone number, the name of the publication(s), the cost of the publication(s) plus shipping and handling.

Payment in U.S. dollars must accompany all orders. Checks, Visa and Mastercard are accepted. Make check or money order payable to: HAI.

Please send your request or response card to: HAI, attention publications, 1619 Duke Street, Alexandria, VA 22314. To order by phone, call: 703-683-4646.

HAI PUBLICATIONS

Periodicals

1989 Helicopter Annual

* A comprehensive reference guide for the civil helicopter industry. The Helicopter Annual includes helicopter specifications, industry statistics, HAI membership directories by class and geographical matrix, listings of international civil aviation contacts, key FAA regional & headquarters contacts, aviation periodicals and association committees.
Price: First copy free to HAI members, additional copies $20; $40 to non-members. Shipping & handling $3 within the U.S.; $5 international. (For advertising information, contact HAI Headquarters at: 703-683-4646.)

ROTOR Magazine

* ROTOR, a quarterly magazine, contains news and features dedicated exclusively to the civil helicopter industry. It covers pertinent legislative and lobbying issues, helicopter operations, safety and regulations issues, including an FAA question & answer column. It also covers HAI committee and member activities.
Price: Subscription to ROTOR is included in membership dues. Within the U.S., non-member subscriptions are $15 per year or $25 for a two-year subscription. Outside the U.S. $25 per year or $42 for a two-year subscription. Shipping & handling charge included.
(For advertising information, contact HAI Headquarters at: 703-683-4646.)

OPERATIONS Update

A monthly newsletter alert for Regular Members, OPERATIONS Update reports government and industry activities which impact helicopter operations.
Price: One subscription free to Regular Members and Associate Members who operate helicopters. Other HAI members $20 per year, non-members $35 per year. Shipping & handling charge included.

Malfunction or Defect Reports

A quarterly compilation listing malfunction and defect data from the Federal Aviation Administration on aircraft components and maintenance procedures.
Price: Available only by subscription, members $25 per year, non-members $40. Shipping & handling charge included.

Preliminary Accident Reports

Initial reports, issued monthly, on helicopter accidents compiled from preliminary data of the U.S. National Safety Transportation Board (NTSB) and Canadian Aviation Safety Board. This publication also includes selected FAA Airworthiness Directives and Alert Service Bulletins from manufacturers. **Price:** No charge to HAI Regular and Associate Members. Other HAI members pay an annual subscription fee of $25, non-members $35 per year. Shipping & handling charge included.

*Advertising space available in these publications, please contact HAI.

HAI Technical Manuals and Guides

Aeronautical Decision Making Guide

The result of a ten-year FAA research, development, testing and evaluation program to determine the feasibility and effectiveness of teaching the aeronautical decision making process to pilots, this manual includes chapters on self-assessment of hazardous attitudes, judgement concepts, identifying and reducing stress, and applying decision making concepts. (1987, 135 pgs.)
Price: Members $6, non-members $10. Shipping & handling $3 within the U.S., $5 international.

Be Alert Around The Helicopter

Published by Reed Stenhouse International Insurance Brokers, this brochure contains tips for those working with, or flying in, helicopters. (1984, 12 pgs.)
Price: Distributed free-of-charge as long as supplies last.

The Fly Neighborly Guide

An outline of HAI's **Fly Neighborly Program**, a voluntary sound-reduction program designed to integrate helicopter operations into the community, this guide actively addresses noise abatement and public acceptance of the helicopter as well as serving as an important pilot training tool. (1983, 110 pgs.)
Price: HAI is pleased to distribute single copies of The Fly Neighborly Guide free-of-charge as an industry service.

The Helicopter User's Guide

A sixteen-page booklet designed to answer the questions most commonly asked by those employing helicopter services for the first time. The Helicopter User's Guide was developed by HAI's Safety Committee. It provides basic information on how helicopters are maintained, what factors affect their performance, and what steps passengers and crew can take to ensure a safe and enjoyable flight. **Price:** HAI members $1 each, non-members $2 each. For 100 copies, $50 to members, non-members $75. For 500 copies, $200 to members, non-members $300. For 1000 copies, $350 to members, non-members $500. Shipping costs based on type of delivery requested, surface or air freight.

Heliport Development Guide

A guide for operators, community planners and heliport developers, this extensive publication includes selected FAA publications (i.e., Heliport Design Criteria, Noise Assessment Advisory Circular), offshore and hospital heliport guidelines and numerous resources needed to plan, develop and implement heliports. (1987, over 800 pgs.)
Price: HAI members $65; non-members $95. Shipping & handling $15 within the U.S., $30 int'l.

Holding on to Revenue

This 16-page guide was developed by HAI's Economics Committee to help operators recognize basic business skills required for successful commercial helicopter operations.
Price: Distribution free-of-charge.

Pilot, Mechanic and PAR Interacting to Isolate and Solve Turbine Engine Problems Before They Happen.

PAR or Power Analyzer and Recorder, is the most advanced system available for monitoring the activity and health of today's high performance turbine engines. On the ground, PAR is a mechanics dream. By linking the on-board Power Analyzer and Recorder to a hand held printer or PC, data for up to 170 events can be analyzed and if indicated, inspections or repairs can be conducted. The PAR system is so advanced that it can even be linked by phone to the home base. Potential problems can be identified and corrected before the next flight.

At the touch of a button on the instrument panel, vital information on engine performance is available to the pilot either prior to take-off, in the air or after landing.

Information on turbine speed (N1, N2), rotor or prop speed, engine exceedences (i.e. temperature, torque, rpms), hot starts and more are automatically indicated on the pilots display as well as being stored in an on-board computer for easy retrieval. No more hand logging.

With constant monitoring of engine performance, potential repairs can be diagnosed and documented. Safely save your maintenance dollars with accurate, reliable and repeatable data for trending and extending engine life.

In the air or on the ground, PAR is the tool that will keep turbine engines in top condition. Make the connection with PAR.

***All Past Presidents/CEO's are Honorary members of HAI.**

Chairman's Message

Vernon E. Albert

Mr. Albert *has been a member of the HAI Board of Directors since 1985. Before becoming Chairman of HAI, July 1, 1988, he served as Treasurer and Vice Chairman. He is Board Liaison to HAI's EMS Committee and its Flight Operations and Instructor's Committee.*

Mr. Albert flew with the Army in Viet-nam in the mid-1960's and in April, 1967 he joined PHI where he has served as Line Pilot, Flight and Ground Instructor, Assistant to the General Manager, Assistant Chief Pilot and Director of Training, and now, Vice President/Chief Pilot.

He has served on the Flight Operations Evaluation Board, (FOEB) of the FAA. He is active in the Helicopter Safety & Advisory Conference (HSAC), was instrumental in developing the offshore (USA) IFR system, and is involved with the Society of Automotive Engineers (SAE) on cockpit environment studies.

Mr. Albert holds a world helicopter speed record for class E-1F helicopters. He also flew in the NASA Microwave Landing System Test as a pilot, is a member of the Heliprops National Specialist Team and served on the 1987 Transportation Research Board panel.

No organization can be all things to all people; but every organization can serve a representative number well. HAI strives to serve the operator community.

HAI concentrates on substantive actions -- not just glitter. And, in the process of serving operators, HAI accomplishes much to advance the total industry.

Also, we must realize that representing the vast number and different types of operators requires a diversified organization.

What can be done to pull our industry together at a time when it seems many want to takeoff in a different direction? We must find the common goals and work together to resolve them. This means not only pulling together within HAI, but also that HAI must work with other organizations within the helicopter world.

The theme of HAI's 41st Annual Meeting and Industry Exposition, "Heliprops...Safe and Neighborly" is one of those areas of common interest. HELIPROPS (Helicopter Professional Pilots' Safety Program) was formed a few years ago to put education and safety at the top of the "Things to Do" list.

George Powell, Director of Commercial Support, Bell Helicopter Textron, Inc., deserves credit for envisioning the plan which, if successful, could reduce insurance rates and, in turn, operating costs by emphasizing pilot professionalism. Pilot education was believed to be primary, and those of us who have spent many years in pilot training know this to be true.

We have not only seen the accident and incident rates drop, but also, through programs such as cockpit resource management, crew coordination training and pilot decision-making training, we have met the enemy and taken a giant step in wiping him out!

What next? I have reliable sources within the industry who say an equivalent program for mechanics (HELIPROMS) is being developed. Both HELIPROPS and HELIPROMS will add to the dedication and professionalism of the helicopter industry.

Who knows? Maybe we can even entice some of those licensed A & P mechanics away from car dealers and back to the hangars where they are greatly needed and belong.

That is the upbeat part of my message. The "bad" part is where do we go from here? The first installment in teaching these courses has been done; but there doesn't seem to be enough information available to get the next generation of classes moving. As we travel around the country, we hear an outcry from the industry to provide the follow-on information, and it seems that the FAA would be a logical group to invest in that cause with money and personnel.

In reality, though, the "help" we are receiving from the FAA falls in line with, "You can't use the word 'inop' you must write "inoperative"; or, "If you sign that without your certificate number, you will be in violation." I think you get the point--if we want increased safety, it is up to us.

We must insist that only the highest caliber instructors teach our pilots and mechanics the basics and advanced material they need to perform their jobs well. When that happens, we will have the credibility to say we are the part of the industry which policed ourselves and established the highest standards through volunteer cooperation.

Our payback will be ***SAFE, efficient, profitable*** operations.

President's Message

Frank L. Jensen, Jr.

Frank L. Jensen, Jr., *HAI President, has been with the Association seven years, first as Executive Director and now as President. A helicopter pilot since 1955, Mr. Jensen has an MS degree in Aerospace Systems Management from the University of Southern California. His aviation experience includes thirty years as an aviator, with commercial ratings in helicopter, fixed-wing, single and multiple engine, rotorcraft and instruments, as well as certification as a parachutist. Mr. Jensen, a veteran of Korea and Vietnam, retired from the Army with the rank of Colonel in 1974. In 1981, Mr. Jensen was awarded the Department of the Army's Outstanding Civilian Service Medal, and a Department of Transportation Commendation.*

Together, we're doing *great* things! Please allow me to explain, and I believe you will then agree with my opening statement.

As I prepared to write these words (on a Saturday evening late in October, with a printing deadline for this issue of Helicopter Annual hovering in the background), I decided to review the six previous "messages" which I had written for the Helicopter Annual. It was very illuminating, and quite encouraging, to note the solid accomplishments which we have made together, during the past six-and-a-half years.

Let's just pick a few highlights, year by year, from these earlier "Messages":

- 1983. The Helicopter Annual was first published! It has become such a popular reference that we forget it is only six years old! HAI's CEO was Gian F. Blower.

- 1984. The "Message" was on the diligent, productive work of...elected leaders, members and staff. Still quite true, of course. It takes all three elements to "maintain our momentum." HAI's CEO was Loran E. Patterson.

- 1985. That year's "Message" was on the acquisition of HAI's office building in Alexandria, Virginia. Many of you have visited HAI's "home", and I am sure that you will agree that it is ideal. And it has increased in value by nearly 75% in the three years since HAI purchased it! HAI's CEO was Charles W. Johnson (as the last elected President/CEO).

- 1986. The "Message" was on achieving organizational stability, economic viability, maturity and widely-based acceptance and respect as the focal point of the civil helicopter industry world-wide. Again, HAI's CEO was Charles W. Johnson (as the first elected Chairman/CEO).

- 1987. That "Message" recited a litany of strong points, including some new ones: a modern computer system and the Helicopter Hotline. CEO was Wanda L. Rogers.

- 1988. Again, some new successes: an in-house "desktop publishing capability" (which was used to produce the 1988 Helicopter Annual, as well as this edition); the Maintenance, Malfunction Information Report (MMIR) program, and the Safety Through Accurate Technical Statistics (STATS) program. Stephen R. Sullivan was HAI's CEO.

- 1989. *This* year. Let's mention just two major accomplishments for the year: 1) ROTOR magazine...a four-color quarterly, "by the industry and for the industry", which has become an instant success. 2) HAI's hull and liability insurance program which is far-reaching and aimed at making insured helicopters under this program even safer, thereby reducing premiums for helicopters covered under the program. HAI's CEO is Vernon E. Albert.

There have been many more accomplishments, which have been most helpful to the HAI membership, and to the entire industry: publication of "Aeronautical Decision Making for Helicopter Pilots"; assisting FAA in updating their Heliport Design Guide; working with the FAA to obtain an MEL exemption for single-engine helicopters; regular, productive meetings of HAI's elected leaders, and committees; and the list goes on.

These are the sorts of accomplishments which led to the coining of the phrase ***"SUBSTANCE, NOT JUST GLITTER"***, when describing HAI's work on behalf of the civil helicopter industry.

Before I close, I would like to thank the dedicated volunteers, who have served as HAI's elected leaders, and as chairmen and members of HAI's committees, and others who have contributed to HAI's successes, both past and present, and those in the future.

Now I would like to return to my opening statement: ***Together, we're doing great things!*** Don't you agree?

Helicopter Association International Committees

Acoustics Committee

The Acoustics Committee is composed of association members whose objective is to review all matters related to helicopter and heliport acoustics. This committee serves as the noise task force of the Regulations Committee. Serving in this capacity, the committee provides technical and political advice for the development of association positions on government and/or community aeronautical acoustics standards and regulations which affect the helicopter industry.

For example, on March 15, 1988, Acoustics Committee representatives made presentations to Mr. J.E. Densmore, FAA deputy director of environment and energy. HAI concerns were presented regarding the pending publication of Heliport Noise Model (HNM) and its expected impact upon the helicopter industry.

Chairman
To Be Elected

Aerial Applications Committee

The committee fosters and promotes the use of helicopters in aerial application of pesticides. The duties of the committee include: advising agricultural helicopter operators of changes in the case law decisions in regards to both wire strikes and phytotoxicity which may or may not have an effect on their operation; attending upon appropriate offices of the EPA and State Departments of Agriculture to make sure that agricultural helicopter operators' interests are presented in the best possible light; issuance and distribution of Ag Alert newsletters covering appropriate and timely topics involved in the aerial application of pesticides; and, serving as the agricultural task force of the Regulations Committee by providing the technical and political expertise in developing association positions on the government and/or community aeronautical agricultural standards and regulations which affect the helicopter industry (the manufacturer, the operator and/or the user).

Dr. Carroll M. Voss
Ag Rotors

Economics Committee

The Economics Committee provides a point of contact for parties within the helicopter industry to exchange ideas on the economic factors which directly affect the cost of operations. The structure of the committee allows participants from operator, engine, and airframe groups to implement programs that benefit the industry.

The committee has initiated efforts to determine the feasibility of collecting and reporting economic industry ratio information. It has also initiated a program that will yield publications and educational programs that will offer guidelines and illustrations on the definition, recording, and reporting of direct operating costs, provide a standard chart of accounts for companies of various sizes, and provide guidelines and examples for the use of DOC's in the financial decisions of operators.

Emergency Medical Services

The EMS Committee continues to expand its membership with key leaders in the helicopter EMS community. This year the committee continues to work on the production of an EMS Operational Training and Safety section of the HAI Safety Manual.

The EMS Committee has joined forces with the Safety Committee to host the Third Annual HAI EMS Safety Seminar presenting a wide variety of contemporary topics specific to aeromedical transportation. During the seminar, the EMS Committee will coordinate a Helicopter Emergency Response Drill supported by aeromedical helicopters.

Flight Operations & Flight Instructors Committee

The Flight Operations Committee seeks chief pilots, flight instructors, flight examiners, and ground school/simulator instructors who will actively participate in local/national initiatives to improve FAA flight/ATC VFR/IFR procedures, helicopter routes, charts, the AIM, and the national airspace system.

The committee has an active role in making recommendations to the FAA/ICAO on the FAA Part 61, 141 &143 review, the FAA revisions to operations specifications, the FAA Basic Helicopter Handbook, airspace/flight regulations, and the national FAA air traffic procedures and charting committees.

The committee seeks input from affiliate organizations, other than HAI committees, and individuals to develop a strong industry voice to represent the operational interests of the civil helicopter industry.

Fly Neighborly Committee

The Fly Neighborly Committee strives to increase pilot participation in and public awareness of HAI's Fly Neighborly Program, a voluntary noise reduction program for civil and military helicopter operators. Priorities for the committee are expected to be: 1) revise and streamline the Fly Neighborly Guide, 2) coordinate Fly Neighborly activities with regional associations and with HAI Safety, Acoustics and Heliports Committees and with the Public Relations Advisory Council, and 3) establish a program recognizing helicopter operators, individuals and agencies who develop the Fly Neighborly Program or those whose special Fly Neighborly achievements have enhanced the helicopter's image in the community.

All Affiliate Members of HAI are invited to nominate "Fly Neighborly" representatives who are willing to actively participate in the critical task of gaining public acceptance of the helicopter. Persons interested in joining the committee should contact the committee chairman.

Government Contracting Committee

The committee maintains a communication link between the commercial helicopter contractors and public agencies which use helicopters. The duties of the committee include: informing the Board of Directors, through committee liaison, of action by government contracting agencies affecting the helicopter industry; presenting the position of HAI operators regarding government contracting to government agencies through channels of communication established, developed and maintained by this committee; ascertaining that the best interests of the helicopter industry are served in the areas of content and provisions of contracts offered by government and political subdivisions for the use of helicopters; and to be alert to areas of government competition with free enterprise and to return these helicopter activities to their proper place in the competitive private sector.

Government Service Committee

The primary objective of the Government Service Committee (GSC) is to expand the use of the helicopter within public service and to act as a gathering and disseminating point for information needed in the establishment and promotion of helicopter operations.

The effectiveness and success of the committee lies in the interaction and direction received from the Government Service Committee constituency. The committee will be looking at regulations and HAI activities that affect government agencies. The committee also provides a vital communication link between the HAI and the Airborne law Enforcement Association (ALEA).

HeliPAC

HeliPAC, a separate and segregated fund of HAI, was created to ensure a healthy future for the civil helicopter industry and profession. Contributors support these critical issues: educating Congress and the Administration on issues that threaten the survival of the civil helicopter industry; increasing awareness of the important role and value of the helicopter in regional and national transportation systems; and, demonstrating collective strength and concern among helicopter professionals over changes to laws and regulations governing our industry.

Contributions are used in public awareness campaigns on behalf of candidates HeliPAC will be supporting. Also, financial support goes directly into campaigns of the helicopter industry's friends in Congress. HeliPAC contributions are voluntary and not a condition of membership. A copy of reports of receipts and disbursements is filed by HeliPAC with the Federal Election Commission, Washington, D.C. 20463.

Heliport Promotion and Development

This committee is one of HAI's two heliport committees which work to place greater emphasis on public heliports, and provide marketing, promotional and technical assistance to heliport proponents.

The committee is developing marketing strategies and materials to educate civic leaders and to promote heliports and overcome resistance to heliport operations.

The committee is creating a promotional vidio. It was also involved in gaining approval of the sight selection study for the San Francisco public use heliport.

Heliport Technical Planning

The Heliport Technical Planning Committee's primary functions are to develop guidance materials for members and planners, and to work with the FAA and other agencies on heliport design criteria and related issues.

The committee includes professionals who are familiar with technical aspects of heliports, heliport applications, heliport designs, statistical and safety data, heliport upgrades, and FAA procedures.

The committee coordinates industry review of new heliport design criteria, revisions to the HAI Heliport Development Guide, and works closely with the Acoustics, Safety and Heliport Promotion and Development Committees to establish safe and efficient heliport systems to serve the public.

Legislative Advisory Committee

The committee monitors, reviews and makes recommendations concerning political and legislative issues with potential impact on the civil helicopter industry. The duties of the committee include: recommend action to HAI's elected leaders, which involves recommending or determining policy which HAI should take on important issues; become informed on important issues, which involves assembling, analyzing and discussing information on important legislation affecting both the industry and the business community as a whole, so that each member of the committee can be an effective spokesman for HAI; and communicate with Congress, which is accomplished through expression of persuasive, personal, and timely views on legislation to members of Congress by telephone, telegram, and in person, in furtherance of goals agreed upon by the committee; and, inform the membership. The committee also informs the membership at large on immediate and long-range effects of federal legislation.

Public Relations Advisory Council (PRAC)

The PRAC works to improve HAI's relations with the media and the general public's understanding of the benefits of the civil helicopter to the community. Its goals include establishing HAI as the industry authority in the eyes of the media; building trust with the operators that the PRAC will assist them; and involving operator-communicators in PRAC activities.

Regulations Committee

The Regulations Committee is charged with overseeing all Association outputs regarding aeronautical regulations and standards. Due to the broad diversity of the subject matter and the existence of expertise on certain technical subjects within other committees, the committee's work effort is divided into "Task Forces" listed below. Any association member may become active on any Task Force upon notification of the Chairman of the Regulations Committee.

In 1988 the committee continued its activity in the FAA's Rotorcraft Regulatory Review Program which this year produced the last of five major rulemaking actions to address structural substantiation criteria for normal and transport category rotorcraft.

Other rulemaking activities being worked on by the committee include: survival equipment for Part 135 rotorcraft operators; requirements for cockpit voice recorders and flight recorders; new rotorcraft OEI engine ratings; and implementation of British CAA rules affecting rotorcraft critical part identification, certification, manufacture and continued airworthiness.

Safety Committee

The Safety Committee is comprised of a cross section of international safety experts from the helicopter industry including representatives from agriculture, air carrier/air taxi, corporate, public service, manufacturers, insurance companies, and government. The committee consists of 12 members, two ex-officios and four advisors. It meets three times a year to identify safety issues in the industry and establish courses of action to solve them. A close working relationship is maintained with the FAA, regional associations and the HAI membership.

The Safety Committee continually reviews the USC Safety Management Course curriculum (held at the Annual Meeting) and assists in USC course updates and course workshops. The committee also co-sponsors the popular HAI CFI Revalidation Course, held at the Annual Meeting, which is the only revalidation course tailored for helicopter pilots. The committee also conducts a Safety Directors Forum during the Annual Meeting to discuss issues important to all safety directors.

During 1988, the committee updated and developed new safety guidelines for distribution to the HAI membership. These publications include the HAI Safety Manual, "The Helicopter User's Guide", and safety articles for ROTOR. The Safety Committee's participation in Safety Seminars throughout the country is well known and is believed to be a key factor in the enhancement of safe and professional helicopter flight operations. The committee continually works to assist in developing industry positions for the HAI on critical issues.

Technical Committee

The Technical Committee actively strives to enhance the safety and reliability of helicopter operations through review and dissemination of airworthiness directives and related information.

The committee has developed a safety award program for maintenance technicians that will be ready for the 1989 HAI Convention.

The committee is reworking the scholarship program which now has three scholarships available each year for HAI presentation. It has contributed to the AD Notes project and MEL's for single-engine helicopters.

The 27th HAI Annual Awards

Outstanding leaders of the civil helicopter industry were recognized at the HAI Annual Salute to Excellence Awards Ceremony, February 28, 1987, in Dallas, Texas. Cited below are descriptions of the awards and their deserving recipients.

PILOT OF THE YEAR

Established in 1960, the Pilot of the Year is the oldest of HAI's thirteen Salute to Excellence Awards. The award recognizes an outstanding single feat performed by a helicopter pilot during the year, or extraordinary professionalism over a period of time. Nominees must be active civilian helicopter pilots.

Pat Walter, left, Helicopter operator/pilot, Air There Helicopters, Inc., receives the Pilot of the Year Award from HAI Chairman, Stephen R. Sullivan. Walter rescued 24 people trapped on the roof of the DuPont Plaza Hotel during a New Year's Eve fire in San Juan, Puerto Rico.

CREW OF THE YEAR

HAI has presented the Crew of the Year Award since 1980 in recognition of the support and team work of the specialized helicopter crew in performing the various missions of the civil helicopter. Nominees could have worked together on a particular mission, or in a consistently outstanding manner for a period of time.

HAI Chairman Stephen R. Sullivan, right, presents HAI's Crew of the Year Award to Gary Lott of the California Division of Forestry for the rescue of firefighters trapped between a wall of flames and a cliff. Pilot Lott, Captain Bill Klebe and Crewman Eric Johnson were each given awards.

ROBERT E. TRIMBLE AWARD

The Robert E. Trimble Memorial Award honors a qualified pilot who is especially distinguished in mountain flying. The award was established in 1961 to focus attention on a pilot who has displayed exceptional ability and good judgement in high altitude flying and has provided outstanding service to others while contributing to high standards of safety, and bringing credit and recognition to the helicopter industry.

The Robert E. Trimble Memorial Award is presented to Steven R. DeJesus, left, Pilot and Mechanic for Landells Aviation, Desert Hot Springs, California. DeJesus earned the award for his rescue of two accident victims in the "high desert" of Southern California. The award is presented by Robert Trimble's son, Jerry Trimble.

MBB GOLDEN HOUR AWARD

The MBB Golden Hour Award was created in 1982 to honor an emergency medical services (EMS) helicopter pilot for providing outstanding assistance in a specific emergency situation, thereby advancing the helicopter in medevac operations.

Craig Honaman, right, former executive vice president of the Tallahassee, Fla. Memorial Regional Medical Center, accepts the MBB Golden Hour Award from MBB Senior Vice President of Marketing, Andy Aastad. Honaman was commended for his unwavering support of civil helicopter-EMS programs.

MAX SCHUMACHER MEMORIAL AWARD

The Max Schumacher Memorial Award was first presented in 1967 to recognize exemplary service to the helicopter industry through the advancement of the use of helicopters in urban area operations.

David W. Graham, left, Inspector for the Massachusetts Aeronautics Commission, earned the Max Schumacher Memorial Award for his dedication to the creation, continued existence and improvement of heliports in Massachusetts. HAI Chairman Stephen R. Sullivan presents the award.

FLY NEIGHBORLY AWARD

Since 1982, the Fly Neighborly Award has honored commendable or significant contributions by individuals or organizations solving a critical sound complaint or problem. The Award is based on HAI's Fly Neighborly Program which stresses voluntary noise abatement and community relations. Qualified nominees will have worked closely with an individual, citizen's group or political entity.

Anthony D'Antonio, Executive Director of the Maui Helicopter Environmental Liaison Office (HELO), accepts HAI's Fly Neighborly Award on Behalf of HELO for its extremely effective sound abatement/public acceptance program which alleviated community complaints against helicopters on Maui. HAI Chairman, Stephen R. Sullivan, right, presents the award.

LAWRENCE D. BELL MEMORIAL

The Lawrence D. Bell Memorial Award, established in 1971, honors an individual for outstanding service to the civil helicopter industry over a period of time. Nominees need not be licensed pilots.

James A. Hamilton, right, Vice President, Commercial Marketing, Bell Helicopter Textron Inc., presents the Helicopter Association International's prestigious Lawrence D. Bell Memorial Award to Peter Wright, Sr., Chairman, Keystone Helicopter Services, for his long and dedicated service to the civil helicopter industry.

HELICOPTER MAINTENANCE

Established in 1973, the Helicopter Maintenance Award recognizes distinguished contributions to aviation safety through significant innovation in design, or longstanding excellence in the performance of helicopter maintenance.

Robert F. Lannerd, left, Director of Maintenance, ERA Aviation Inc.., receives the Helicopter Maintenance Award from HAI Chairman, Stephen R. Sullivan. Lannerd has an outstanding record of helicopter maintenance accomplishments.

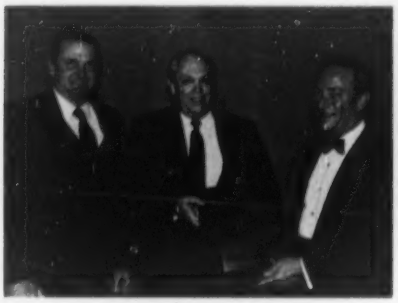
SAFETY

The Safety Award was presented for the first time in 1988. It is presented to acknowledge outstanding contributions in the promotion of safety and safety awareness throughout the civil helicopter industry.

Myles Ruggenberg, right, receives the HAI Safety Award presented by HAI Chairman, Stephen R. Sullivan. Ruggenberg has evaluated helicopter and heliport safety, both civil and military, since 1952. He has over 13,500 hours in fixed wing and helicopters.

McDONNELL DOUGLAS LAW ENFORCEMENT AWARD

First presented in 1972, the McDonnell Douglas Law Enforcement Award is given for a worthy contribution to the advancement of the crime-suppression concept of helicopter patrol service. Nominees are not limited to pilots or law enforcement personnel.



Sergeant Douglas Pasley, far left, of the Tampa Police Aviation Squad, and Chief of Police A.C. McLane, second from left, accept the McDonnell Douglas Law Enforcement Award presented by Norm B. Hirsh, Executive Vice President of Programs Management, McDonnell Douglas Helicopter Company. The Tampa Police Aviation Squad has provided an excellent example of airborne law enforcement.

EXCELLENCE IN COMMUNICATIONS

Established in 1980, the Excellence in Communications Award is given to the print or broadcast journalist achieving the most creative and distinct dissemination of information about the helicopter.

On behalf of posthumous award winner Donald Toler, former Editor of Rotor & Wing magazine, HAI Chairman, Stephen R. Sullivan, right, presents HAI's Excellence in Communications Award to David Jensen, left, Editor of Rotor & Wing International.

RAISE YOUR SITES! AWARD

The Raise Your Sites! Award, established in 1983, recognizes the person or organization that has done the most during the year to promote the establishment of public-use heliports.

James Brown, left, Chairman of the Indianapolis Heliport Corporation, accepts the HAI Raise Your Sites! Award on behalf of the Indianapolis Downtown Heliport. HAI Chairman, Stephen R. Sullivan, presents the award.

OUTSTANDING CERTIFIED FLIGHT INSTRUCTOR

HAI's Outstanding Certified Flight Instructor (CFI) Award was established in 1985 to recognize superlative contributions by the helicopter flight instructor in upholding the high standards of excellence for helicopter pilots.

With 13,500 hours as a Certified Helicopter Flight Instructor, Donovan L. Harvey, right, Marketing Specialist for Bell Helicopter Textron Inc., receives the outstanding Certified Flight Instructor Award from W.A. "Dub" Blessing, first recipient of the award.

ALL THESE AIRCRAFT RUN ON ONE ENGINE.

The Allison Model 250 Series gas turbine engine.

With over 50 applications worldwide, it has accumulated over 40 million flight hours to date. It is the reliable light aircraft turbine engine.

Contact Allison and ask about the latest upgrade, the C-20R that gives better all around performance and comes with a 2 year, 1,000 hour limited warranty.

For details, write to Allison Small Engine Sales, Allison Gas Turbine Division, General Motors Corporation, PO Box 420, Speed Code 0-12, Indianapolis, Indiana 46206, USA. Telex 6876067.

Aerospatiale 365N1: where it all comes together with style...

The Aerospatiale 365N1 breaks the schedule barrier. No traffic, no transfers, no delays. Go direct with first class accommodations all the way. Plush interiors, comfortable seating. A quiet, low noise level, airborne office. Desks, phones, fold-down seats, it's all there. New, folding AirStair entry/exit door. Recessed footwell in floor for additional leg room.

Aerospatiale has put it all together and it's all here in the proven Dauphin 365N1. For additional information contact Ron LaFleur, Vice President Marketing, Aerospatiale Helicopter Corporation, 2701 Forum Drive, Texas, Grand Prairie, 75053-4005. (214) 641-0000.
